

HARRY CHELEKIS IS KILLED

Revolution in Portugal Has Been Brewing Over Two Years.

Enormous Wealth Confiscated
PRIESTS AND MONKS
EXPULLED

Lisbon, Oct. 11.—Although perfect calm exists here, the expulsion of priests, monks and nuns continues. Any seen on the streets are immediately arrested. Civil Governor Leao explains that this is the best means of protecting them from violence. The members of the Irish Dominican mission, which has flourished here since its foundation in 1815, have come under the ban. They have appealed to the British legation, but there is no reason to suppose they will be exempted. A number of Irish nuns will have to go also.

The native monks and nuns have been given the option of staying if they renounce their orders; otherwise they will have to quit. Most of the Portuguese Jesuits will go to Brazil. Some of them will go to England. The state will be greatly enriched by the confiscation of property of the congregations. The Jesuits own property of enormous value, especially real estate, but the monasteries contain quantities of gold and silver plate. Many of the congregations' cellars are filled with valuable old wines. A military governor has been placed over all these properties.

Gibraltar, Oct. 11.—It is stated that ex-King Manuel altered his decision to go to Villa Manrique in consequence of representations by Spain, which feared that if he visited there it would stir up the Spanish republicans.

Manuel, before leaving Portugal, wrote to Premier Sousa: "I am compelled owing to stress of circumstances to embark, but I wish to inform the people of Portugal that my conscience is clear. I have always acted faithfully as a Portuguese, and have done my duty. I shall always remain a whole-hearted Portuguese. I hope my countrymen will do me justice and try to understand my feelings."

COSHOCOTON IMPERIAL BAND
WILL PLAY AT THE RACES

When the Coshocton Imperial band plays this week, The Age predicts that Coshocton will be pleasantly surprised. The boys have been practicing hard for the past three weeks, under the able direction of James Hagans, and their improvement has been most marked. For this week the band has been augmented to eighteen pieces and from the interest shown it is likely that in quantity as well as quality it will continue to grow. They will play every day at the fair races.

Thursday night a fine concert program will be given at the public square between 7 and 8 o'clock, for which the following catchy and up to date program has been prepared:

The King Medley Overture, O'Hare Lustspiel, Kolher Bela Mexican Waltz, Moreno Fluffy Ruffles, Muhl "Every Little Movement," from Madam Sherry, Karl Hoschina Celery Tons, Gardie Simons Remick's Hits, Lampe.

James Hagans is one of the most competent musicians that ever played in Coshocton and the fact that he is directing the excellent musicians who compose the band is in itself a guarantee of excellence. The following:

- SITUATION IN BRIEF.**
- Here is a summary of the worst fire situation:
 - Towns and villages burned—Beaurette, Spooner, Roosevelt, Longworth, Swift, Pitt, Zippie, Solar, Cedar Spur, Gravel Pit, Spur, Graceton, Engle.
 - Partly burned—Rainy River, War Road, Sprague, International Falls, Pinewood.
 - In danger—Stratton, Fort Francis.
 - Population of area burned—Over 12,000.
 - Estimated dead—Eight hundred.
 - Bodies recovered—Nearly 200.
 - Homeless—Five thousand.
 - Property loss—Over \$100,000,000.

musicians compose the band:
Director, James Hagans.
Bass, J. Stipes
Baritone, E. Shepler
1st trombone, J. Johnson
2nd trombone, T. O. Frederick
3rd trombone, V. Loos
1st alto, J. Thiel
2nd alto, T. Johnson
3rd alto, W. McDonald
Solo cornet, C. Hull
Asst. solo cornet, J. Thompson
1st cornet, Leon Loos
2nd cornet, A. Smith
"E" clarinet, O. Peugner
Solo B clarinet, A. Seitz
1st clarinet, T. Johnson
2nd clarinet, H. Shrigley
Small drum, J. M. McCoy
Bass drum, J. Evans.

**450 TICKETS
FOR CHAUTAUQUA
ALREADY SOLD**

Secy. Merrell of the Chautauqua board has sent out circular letters to all stockholders, asking them to solicit their friends to take season tickets for next year, to be paid for by July 15 and the stockholders to work at once and report by Nov. 15. The board already has sold 420 tickets for next year. He also reports he has 23 shares of stock yet to be sold.

NEW NOVELS
SHELFED AT
THE LIBRARY

Following is a list of new fiction received at the Carnegie library recently: "The Osbornes" by E. F. Benson, "Nathan Burke," by Mary S. Watts, "The Power and the Glory" by Grace McGowan Cooke, "The God Parents" by Grace Sartwell Mason, "The Wild Olive" by the author of "The Inner Shrine," "Simon the Jester" by Wm. J. Locke and "The Varmint" by Owen Johnson.

CORONER SAYS DEATH WAS
CAUSED BY ELECTROCUTIONENGINEERS' CLAIM
SETTLED FOR \$2,500

The bridge fund transfer case came up briefly before Judge Nicholas Tuesday morning but was continued owing to the absence of Judge R. M. Voorhees, who left Monday evening for Wooster to hold court, before the summons could be served upon him. The fight has really narrowed down to one point of contention—the \$300 claim of Jas. McDowell for printing the records of the bridge proceedings. The bills of Judge Voorhees, and F. E. Pomerene for legal services

were admitted by the commissioners in the answers filed Monday afternoon. A settlement of the \$4,000 claim of Engineers Waddell & Harrington has been reached on a \$2,500 basis and it is to be paid next week. The figures are to remain at \$4,000 but the commissioners are to pay only \$2,500 and take a receipt in full. A few weeks ago an offer of Mr. McDowell to settle for \$225 was rejected by the commissioners.

Roscoe to Take In
New Territory

The matter of enlarging the corporation of Roscoe will be taken up at the regular meeting of the Roscoe council this evening. The plan is to take in a large section of territory including the new hydro-electric plant at the north end of the village. It is said that a majority of

the councilmen are in favor of the proposition and that it will probably be favorably acted upon as it will mean a substantial increase in the tax duplicate. The question of electric lights may also be brought up at the meeting tonight.

HEALTH BOARD
TABLES ABBOTT'S
RESIGNATION

The board of health tabled Health Officer Abbott's resignation for the time being, at least, at their fully attended meeting. The board does not want to accept it, but the officer is obdurate. It is said the explosive fireworks sent up in council some weeks ago are the cause of the officer declining to serve any longer. It is also whispered that some members of the board, if they finally accept his resignation will insist that the new health officer be either a doctor or a veterinarian. His resignation follows:

To the board of health, Coshocton, O.:
Gentlemen: For reasons best known to myself I wish to offer my resignation as health officer of the city. My association with you since being in your service has been most pleasant. I have been present at every meeting, we have pleasantly discussed the topics pertaining to the health of the city; I have tried to do my duty to both you and the citizens generally. You have never given me an unkind word, but ever ready to give me your support in things you considered just and right. While I do not claim to be perfection in this particular work, knowing that there are many difficulties and complications to contend with, yet I have never known you to disapprove of my work as health officer. Believing you to be gentlemen in every respect and well fitted for the positions you hold as members of the board of health, I ask that you kindly accept my resignation at once. If I can be of service to my successor either by word or deed I will gladly do it. Respectfully submitted,
E. G. Abbott.

MARKER SPRINGS
LONG TALKED OF
GRAFT CHARGES

Columbus, Oct. 11.—Engineer Mark, of the state board of public works, Harmon's appointee, made public his long heralded graft charges this afternoon, as a part of the Democratic campaign, although the governor was ordered by the Republican legislature last February to make an investigation. He charges incompetency and misuse of state funds by various sub-officials between Cleveland and Akron and Waverly and Portsmouth. Supt. Charles Hatch at Akron is accused of grafting the state on stone and other contracts.

Veteran Driver Stricken.
Lexington, Ky., Oct. 11.—While working his horses at the trotting track, the veteran driver and trainer, Mike Bowerman, was stricken with paralysis and carried to his home in an unconscious condition.

MUD HOLE CHARGED
WITH ELECTRICITY
KILLS A HORSE

Zanesville, O., Oct. 11.—A mud hole charged with 2,300 volts of electricity in an alley caused instant death to a horse attached to the White dairy wagon Monday. The animal stepped into the mud hole and died.

A broken wire had fallen into the mud hole and charged the water. It is claimed the wire was a low tension wire but had become crossed with a high tension wire somewhere.

Watch Stolen by
Race Horse "Swipe"

Percy Monroe, colored, pleaded guilty before Mayor Cassingham on Tuesday morning to stealing a Hamden watch from Norman Holland, white, at the barns near the race track Monday night at the fair grounds.

A crowd of "swipes" and horsemen had been sitting around a campfire, Holland, a boy, was left alone with Monroe. Holland went to sleep. When he awakened a short time later his watch was gone. The boy called

the police and a search was made. They found the watch wrapped in a rag in the corner of a stall occupied by another colored man. How it got there is a mystery. Monroe and the other negro were both arrested by Officers Laird and Gorman.

Monroe, it is said, was seen by another man fumbling in Holland's clothes. When confronted with the evidence Monroe told Mayor Cassingham he might as well plead guilty and get his sentence right away.

PAY TRAIN
WRECKED
AT ISLETA

Tuesday morning, about 8 o'clock, in endeavoring to back on to a switch to allow No. 7 to pass, the pay train on the Pennsylvania at the lower near Isleta was wrecked and held up for four hours. The wreck, it is said, was due to the brakeman's turning in the derail, which threw the pay train off the track. Ties and rails for about 100 feet were torn up, but little other damage was done. The wreck train at Dennison was sent for.

FELL FROM PORCH
AND BROKE ARM

Mrs. Lloyd Fleming fell from the back porch of her home in Spring Mountain Monday evening, about 7 o'clock, and broke the large bone in her forearm, between the wrist and elbow. Dr. Baker of Killbuck was called to reduce the fracture.

CIGARETTE FLEW
INTO BOY'S MOUTH
ABCESS FOLLOWS

Bud Henderson, news boy in the employ of the O'Donnell news stand on Main street, is suffering from an abscess on his left jaw caused from a lighted cigarette flying into his mouth a few days ago.

Henderson was riding a bicycle delivering papers, and had a cigarette in his mouth. As he was passing the cigarette flew into the boy's open mouth and burned a slight wound on the inside of his cheek. He irritated the wound and poisoned it and Monday the abscess started. It is a most painful thing and the boy is being carefully watched by his physician to prevent any further complications.

SHEERICK TAKEN
TO WORKHOUSE

Wm. Sheerick, of Oxford township, pleaded guilty Tuesday morning to contributing to the negligence of 15-year-old Alice H. Lent, and was sentenced to six months in the workhouse by Judge Ashman. Three months were suspended on the condition that Sheerick shall conduct himself properly in the future. He must pay the costs in the case. Judge Ashman decided that the circumstances warranted a heavier penalty in Sheerick's case than in that of Alva Boyd. Sheerick was taken to the Columbus workhouse by Probation Officer Brunsell Tuesday noon. The girl will probably be taken to Delaware this week.

Awful Accident Occurred Tuesday Morning at 6:15 at Ice Cream Factory in Rear of Greek-Ar Candy Kitchen on Main-st.

Harry Chelekis, proprietor of the Greek Candy Kitchen on Main-st. was almost instantly killed Tuesday morning, in a refrigerator cream plant in the rear of the Main-st. store is the belief of Coroner Lower that he met by electrocution.

Chelekis had gone to the ice cream plant early to make ice cream to fill a big influx of orders from men at the fair. Steve Korris a young Greek who but recently came to Coshocton, was working with him.

Korris opened the door of the refrigerator and says that he looked in and saw the electric light flashing. He stepped into the ice box, and took hold of the button on one of the small bulbs and turned it. He received a heavy shock which contorted his body and burned his right thumb slightly.

Thoroughly frightened young Korris left the ice box and told Chelekis of his experience, who laughed at his fears and started for the door. Young Korris warned him not to go into the box, he says, but Chelekis laughed and walked in.

A second later Korris says he heard Chelekis scream and rushing to the door he saw the older man lying on the floor of the refrigerator.

Felt Shock in Body.
Korris says he took hold of Chelekis' body to pull him from the box but felt again the shock and dropped the body and ran to the street. He called Peter Birris another Greek and the two carried the body to the main room of the factory and called a physician and Mr. Chelekis' partner R. E. Tracewell. The two Greeks say that Chelekis was breathing heavily when they pulled him from the refrigerator but did not speak. When the physician arrived Mr. Chelekis was dead.

Heart Trouble Dealt.
It was advanced by some that Chelekis was possible a heart trouble, but his Tracewell, who is a brother of the man, says that Mr. Chelekis was always healthy and had dealt with this disease in a number of cases.

Harry Chelekis was born in Sparta, Greece, 37 years ago, came to America when he was 12 years, settling in Coshocton in 1898. He lived in Chicago for some time, leaving there he went to where he engaged in business. He later lived in New York, Wm. Va., and Pomeroy, Ohio, from the latter place he came to Coshocton about 10 years ago.

Successful Merchant.
He opened a candy kitchen immediately below of The Age in the Selby building. His business grew so rapidly that in a few years he removed to his present location on Main-st. where he built a factory for the manufacturing of ice cream in this building that death.

Singing Hymn As Deceased.
Since Mr. Chelekis' death Coshocton he made a host of friends. He was a business principle and whose character was unimpaired. He was a member of the Methodist church and was one of the members of the local church. He went to his death singing an old hymn "Come to Jesus" and died words of the first verse of the hymn.

Mr. Chelekis is survived by aged mother, Mrs. Sophia Chelekis, who still makes her home in Greece, and two brothers, S. S. and S. P. Chelekis, both of whom were notified of the death by telegram Tuesday morning. The widow is grief-stricken and no funeral arrangements have been made.

Captain Tracewell of the partnership and R. E. Tracewell was in partnership with Mr. Chelekis, who were brothers-in-law.

REV. FATHER GOSS
Who arrived today from Wm. to take up his duties as pastor of Sacred Heart church.

Your Checks An Indicator

If you are depositing your money with the Coshocton National Bank and paying your bills by check you can always know the exact state of your finances.

The record you keep on your check stubs is like the speedometer on the auto—shows just at what pace you are going and warns you against spending too fast. That is why the man with a bank account is able to live more economically, thereby increasing his net earnings.

Net earnings, you know, is what you are able to save from your salary, and a bank account will help you reduce expenses and increase your earnings.

B. Smith, asst. cashier

WHY YOUNG MEN DON'T ATTEND CHURCH

Rev. L. D. Hammond, of the First Methodist church, has sent out a number of letters to the young men of Coshocton, asking them why so many of them do not attend church. Answers to these letters, which are coming in rapidly, will be read by Rev. Hammond at the hour of regular service next Sunday evening. They are certain to prove interesting, and a large attendance at service is expected. There will be special music for the occasion.

See these prizes on exhibition at the various stores.

DISTRICT ONE.

A Piano, Diamond Ring, Scholarship and Gold Watch go to this district.
Miss Hazel Dancer, 422 N. 8th-st. 102,360
Mrs. Nora Wiggins, 11th and Orchard 91,670
Mrs. Garfield Larcombe, 1129 E. Chestnut-st. 59,350
Miss Rose White, 16 and Elm-sts. 51,960
Miss Emma Schlarb, E. Main-st. 41,620
Miss Nellie Howe, 1021 Walnut-st. 39,250
Miss Fay Burrell, 348 N. 8th-st. 21,720
Miss Ethel Tozier, 12. Chestnut-st. 14,850

DISTRICT TWO.

A Piano, Diamond Ring, Scholarship and Gold Watch go to this district.
Mrs. Edna Austin, 746 Vine-st. 88,000
Mrs. Flo Tompkins, 859 S. Law 73,390
Mrs. Verna Lear, 665 Ash st. 70,500
Goldie Houston, 649 Walnut-st. 66,660
Mrs. E. J. Robinson, 734 Kentworth 55,500
Miss Mae Maple, 509 S. 10th-st. 51,260
Mrs. Sarah E. Rogers, 737 S. Seventh 49,720
Mrs. Florence Frazier, East Walnut 47,200
Mrs. Mary Miller, 742 Elm-st. 42,220
Miss Nellie Knott, 722 John-st. 11,810
Miss Grace Adams, S. Lawn st. 6,920

DISTRICT THREE

A Piano, Diamond Ring, Scholarship, Gold Watch go to this District.
Miss Jennie Felver, R. 2, Isleta 115,360
Miss Belle Deeds, Fresno 87,540
Miss Beulah Hothorn, R. R. 4, Piedra 87,220
Miss Glennie Ely, R. R. 4, Fresno 55,500
Miss Nellie Johnson, R. R. 3, Newcom 73,820
Miss Katie Scheetz, Fresno 71,860
Miss Jessie Stone, Plamfield 62,800
Miss Matilda Hiser, R. R. 4, Coshocton 61,800
Miss Myrtle Lantz, R. R. Sugar Creek 61,250
Miss Lizzie Clark, R. D. 1, Conesville 59,620
Miss Bernice Hamilton, Fresno 57,230
Miss Wilma Farrar, West Lafayette 51,260
Miss Belle Beitz, R. F. D. Sugar Creek 31,260
Miss Margaret Huprich, Fresno 8,160

DISTRICT FOUR

A Piano, Diamond Ring, Scholarship, Gold Watch go to this District.
Miss Ethel Wickens, Roscoe 100,300
Miss Emma Zimmers, R. D. 2, Coshocton 99,250
Miss Jessie Ferrell, R. R. 3, Fresno 91,260
Miss Mildred Guthrie, Clark 80,000
Miss Flossie Bible, Roscoe 50,130
Miss Sylvia Cox, R. R. 2, Conesville 79,260
Miss Ross Pew, Keene 71,870
Miss Gladys Grine, Clark 68,500
Miss Clara S'ingle, R. R. 1, Coshocton 65,320
Miss Nellie Wheatcraft, R. R. 3, Coshocton 32,860
Miss Grace Wolfe, R. R. 5, Coshocton 29,520

DISTRICT FIVE

A Piano, Diamond Ring, Scholarship, Gold Watch go to this District.
Miss Bertha Bible, Warsaw 115,290
Miss Laura Reed, R. R. 2, Nellie 107,800
Miss Maude Graham, Cooperdale 96,270
Miss Esther Givner, R. R. 1, Nellie 97,120
Miss Edna Switzer, Waulonding 94,510
Miss Myrtle Edwards, West Carlisle 91,260
Miss Nellie Mullett, Blissfield 85,206

Are You Trying to Win a \$350 Compton-Price Piano

Go Look at Them and You'll Want
to Own One—Just a Little Work is
All There is to It.

Double Votes Will Help You—Twice
the Usual Number of Votes Allowed
on All New Subscriptions This
Week. Read the Ad. on Page 10
in This Issue.

SPECIAL NOTICE.

Contestants who have turned in three and six months subscriptions at any time during the contest will, if they induce subscribers from whom they have obtained these three and six months subscriptions to extend their subscriptions to a year, be allowed enough votes on the balance of the subscription to make the full year's votes. This only applies to contestants who secure the subscriber on both occasions—if the second subscription is brought in by another than the contestant who secured the first subscription the full votes will not be allowed, but only the regular votes on the subscription secured at the time.

The same rule will apply if subscriptions are increased from one year to two years.

You who have entered in The Age's great voting contest, don't you think it is high time you began to figure on winning one of the \$350 pianos. Ask yourself this question. We know what the answer will be, and congratulate you upon your good judgment. But why are you waiting? Timid? Afraid you can't win? You shouldn't be. Others are trying and you have as good a chance as they. Don't be afraid you can't win. You will laugh at your fears when you have tried and have found out how easy it is to secure subscriptions. Subscriptions mean votes—and votes mean a prize for you. Now, can you think of one single reason why you should not try? Don't do yourself the injustice of staying out of this contest. It may mean that piano you have been wanting so long.

And you should start at once. Begin while this splendid double vote offer is in force. Anything that is worth doing is worth doing now. Of course, you want a piano—and it's yours with a little effort. We make you the proposition and invite you to seize the glorious opportunity. Why don't you go and take a look at them? When you have done this, you will be more anxious than ever to have a piano for your very own. You are not paying for it, you know. You are getting it absolutely free of any cost to you.

This is not a raffle—not a game of chance, at all. You simply want to secure the largest number of votes cast for any one candidate in this district. Then, at the close, on Oct. 22, we will be most happy to turn over to you, with all the delights attendant upon its possession, a handsome \$350 piano.

It should not require a great deal of argument to convince you of the pleasure of owning your own piano. You are, no doubt, as well acquainted with it as we. What we are trying to do is interest you in this contest, to the end that you may realize what may be your pet ambition.

Are you thoroughly acquainted with the proposition we are making you? In the event that you are not, we will be very glad to inform you upon any of the particulars you may not understand.

We would not have you forget that there are fifteen other prizes aside from the five pianos. Acquaint yourself with them and with the details of the proposition. We think you'll decide to get into the race.

The Last Special Vote Offer of the Great \$2800 Contest.

The last special vote offer in The Age's great \$2800 contest is hereby announced. Be sure to read it carefully.

We will allow an increase of double votes between the dates of Oct. 10 and Oct. 15, inclusive, on all NEW subscriptions and we will allow 50 per cent. increase votes on all NEW subscriptions turned in the last six days of the contest, Oct. 17 to Oct. 22 inclusive.

The schedule of votes allowed on all NEW subscriptions is as follows:
Votes Allowed on NEW Subscriptions Between the Dates of Oct. 10 and Oct. 15, inclusive By Carrier or by Mail.
Daily Age.

Three Months 5,000 Votes
Six Months 12,000 Votes
One Year 30,000 Votes
Two Years 80,000 Votes

Weekly Age.
One Year 5,000 Votes
Two Years 12,000 Votes

Votes Allowed on New subscriptions Between the Dates of Oct. 17 and Oct. 22, inclusive. By Carrier or by Mail.
Daily Age.

Three Months 3,750 Votes
Six Months 9,000 Votes
One Year 22,500 Votes
Two Years 60,000 Votes

Weekly Age.
One Year 3,750 Votes
Two Years 9,000 Votes

The regular number of votes will be allowed on Old Subscriptions as follows:

By Carrier or by Mail.
Daily Age.
Three Months 2,500 Votes
Six Months 6,000 Votes
One Year 15,000 Votes
Two Years 40,000 Votes

Weekly Age.
One Year 2,500 Votes
Two Years 6,000 Votes

These are positively the last special vote offers to be made in this contest. Those who fail to take advantage of them are jeopardizing their chance of winning one of the five \$350 Compton-Price pianos, one of the diamond rings, one of the scholarships or one of the gold watches. It will be advisable to turn in every available subscription during the coming week, and take advantage of the double votes allowed on NEW subscriptions. The double vote offer closes Saturday, Oct. 15. The 50 per cent offer closes the last day of the contest, Saturday, Oct. 22.

AS BEFORE YOU DO NOT HAVE TO PUBLISH VOTES ISSUED ON NEW SUBSCRIPTIONS BUT MAY HOLD THEM BACK UNTIL THE LAST DAY OF THE CONTEST, Oct. 22. Get your orders in promptly. A few thousand votes may win one of the twenty prizes. Tell your friends it's now or never. Make it Now.

\$1.75 Cleveland, O. every Saturday via W. & L. E., return Sunday.

\$1.50 Cleveland, Ohio, and stations south to Canton every Sunday morning via W. & L. E. Return same day.

WOMEN ARE ASKED TO AID FARM SCHOOL

Committees Named Include
Prominent Citizens of
County.

LE RETILLEY IS
NEW PRESIDENT

City Hall Likely to Be Location—Will Boost at the Fair.

President—Ed LeRitiley, Coshocton.

Vice president—L. D. Schott, Roscoe.

Secretary and treasurer—Jacob Wolfe, Coshocton R. F. D. No. 1.

These officers were elected to act at the head of the Agricultural Extension school, to be held in Coshocton the latter part of November, at the meeting held at the public library Monday night.

Committees for membership and advertising, finance and local arrangements, and demonstration and material, were also appointed, farmers and business men and women in Coshocton and Coshocton county.

The extension school will be well advertised and it is the plan of the men at the head of the proposition to make this the first attempt of anything of the kind ever held in the county, to be a big success. A committee was appointed to take the advertising end of the school at the county fair this week and talk the proposition to every farmer in the county and get them interested by showing them the excellent benefits of such an institution.

The committee on finance and local arrangements were instructed at Monday night's meeting to decide on the place most convenient in which to hold the school.

The basement of the Presbyterian or the Methodist Episcopal church was suggested as a most convenient place for the holding of the domestic science end of the school because of the excellent facilities offered by these places. The city hall was suggested as a place for holding the agricultural end of the school; but this matter was left entirely in the hands of the committee.

The following committee composed of farmers from every township was named to take charge of the work of enlarging the membership and the advertising: E. L. Lybarger, Warsaw, chairman; Jacob Hammer and J. Powell, Adams; Russell Sharpless and Jno. T. Orr, Bedford; Jas. T. Clark and Milo Fisher, Bethlehem; J. Ab. Findlay, T. H. Williamson, Clark; J. C. Crile, Crawford; Jno. Wagoner and S. F. Dawson, Franklin; Henry Crawford, Allen Marshall, Jackson; E. C. Darling, Mat Crawford, Jefferson; J. J. Scheetz, S. M. McCormick and Ed Clark, Keene; Chas. McClun, Jno. Kirk, and Peter Shaffer, Lafayette; Bert Miskimeng, Spangler Slicker, Linton, G. P. Nowla, Hervey Speckman and Warren Giffon, New Castle; Curtis Porter and D. C. Lawrence, Millersburg; N. J. Markley and J. L. Conner, Montez; J. L. White, side and J. E. Fletcher, Oxford; French Berry, Frank Heaton and C. O. Mercer, Perry; Gilbert Ashcraft and S. F. Cheney, Pike; H. C. Miller, Harry Winslowe and Chas. McDonald, Tipton; H. S. Scott, Chas. Slaughter and Chas. Robinson, Virginia; Wm. Graham and Hamline Howell, Washington; B. O. Stingle and Harry Caton, White Eyes; J. J. Foster, Howard Lennon, P. C. Shipp and Irvine Portens, Tuscarawas.

Beside these gentlemen the following women of the city and county were appointed to act on the committee: Mrs. R. A. McGuffin, West Lafayette; Mrs. Norman Taylor, Mrs. F. Laughlin, Warsaw; Mrs. C. C. Porter, Mrs. Benton Porter, Mrs. Judge Wolfe, Keene; Mrs. Louisa Heckl, barger, Mrs. Peter Shaffer, Warsaw; Mrs. Harry Hart, Coshocton Route No. 2; Mrs. Riley Wallis, Warsaw; Mrs. Robert Cochran, Miss Nellie Severns, Miss Elsie Miller, Miss Delia Hanley, Coshocton; Mrs. Frank Graham, Cooperdale; Mrs. L. D. Schott, Mrs. Jno. Viole, Mrs. Lon Clark, Mrs. G. H. Daugherty, Mrs. Thad Haight, Roscoe; Mrs. H. R. McCurdy, Coshocton.

The committee on demonstration and material is composed of: E. C. Darling, E. M. Haulon, B. O. Stingle, Mrs. J. R. Johnson, Mrs. P. C. Shipp and Mrs. James Shepherd.

The finance and local arrangements committee was named: Jacob Wolfe, A. H. Thomson and E. O. Selby.

Everett Darling is to have charge of the advertising and boosting of the proposition at the fair this week.

New Baby List.

Born to Mr. and Mrs. Frank Fahn-er of Wilson ave., Tuesday morning, a baby boy.

DIAPYPSIN IS SPLENDID FOR YOUR STOMACH

The question as to how long you are going to continue a sufferer from indigestion, dyspepsia or out-of-order stomach is merely a matter of how soon you begin taking some Diapypsin.

If your stomach is lacking in digestive power, why not help the stomach to do its work, not with drastic drugs, but a re-enforcement of digestive agents, such as are naturally at work in the stomach.

People with weak Stomachs should take a little Diapypsin occasionally, and there will be no more indigestion, no feeling like a lump of lead in the stomach, no heartburn, Sour risings, Gas on Stomach or Belching, or undigested food, Headaches, Dizziness or Sick Stomach, and, besides, what you eat will not ferment and poison your breath with nauseous odors. All these symptoms resulting from a sour, out-of-order stomach and dyspepsia are generally relieved in five minutes after taking a little Diapypsin.

Go to your druggist and get a 50-cent case of Diapypsin now, and you will always go to the table with a hearty appetite, and what you eat will taste good, because your stomach and intestines will be clean and fresh, and you will know there are not going to be any more bad nights and miserable days for you. They 'freshen you and make you feel like life is worth living.

MANY HIGHBRED CHICKENS AT COUNTY FAIR

The poultry department will be one of the interesting features of this year. Frank Ricketts, who has been meeting with success showing his birds at the various county fairs, has a large number of chickens entered and other local fanciers will have large exhibits.

It is deliciously palatable, agrees with the weakest stomach, contains the most soothing, healing, strengthening and curative elements. Makes you well and happy. Hollister's Rocky Mountain Tea, 35 cents. Tea or Cakes.

See the three legged calf in the Frew building. 11-2

ALL HOPE ABANDONED

Starkville Mine Badly
Wrecked and Full of Foul
Gas

[Associated Dailies Telegram]
Starkville, Colo., Oct. 11.—As darkness settled over the entrance to the Starkville mines, the hope that had buoyed up the watchers at the pit mouth throughout the day that some of the 50 or more men entombed here would be found alive grew faint and gloom settled again over the silent crowd.

After a hard day of work in the face of constant peril, the party penetrated the mine nearly 12,000 feet, or within 900 feet of the men imprisoned nearest the main entrance. Instead of finding the mine clear of debris and afterdamp at this point, the working were wrecked and poisonous gases were again encountered.

Fine Helped Run State.
Austin, Tex., Oct. 11.—The report of the state treasury department for the fiscal year ending Aug. 31, just made public, shows that the fine of \$1,650,000 that the state collected from the Waters-Pierce Oil company for its violations of the anti-trust laws paid more than one-third of the expenses of the state government during that period.

Mexican City Flooded.
Mexico City, Oct. 11.—Advices from San Luis Potosi say that part of that city is flooded and much damage has been done as a result of terrific rains. Two deaths from drowning are reported.

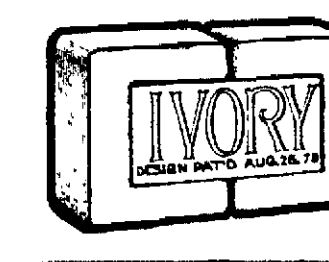

Roosevelt Has Busy Day.
St. Louis, Oct. 11.—Today is one of Colonel Roosevelt's busiest since leaving New York, having been on the jump almost constantly since his arrival at 1:16 this morning. The time is being spent in receptions and speeches. He will deliver the most important speech of the trip here this evening, leaving in the morning for Springfield, Ill.

RICHARD DARNES
Republican candidate for County
Treasurer.

"Dick" Darnes, as everybody knows, is a business man, careful and con-

scientious, capable and accommodating. If anybody can make it pleasant for you to pay your taxes, Dick Darnes is the man. A vote for him for treasurer is a vote for economical management of county affairs, and courteous attention to the taxpayers.

"I am not afraid of soap. I have never found that it injured my skin. I wash my face with Ivory Soap and hot water every night and morning. At night I apply cold cream, rubbing it well into my face and neck and leaving it on over night. In this way, it is absorbed into the skin."

This is the method of caring for her complexion which is followed by "Iowa's most beautiful woman."

Ivory Soap . . 99% 100 Per Cent. Pure

The cure of Henry J. Goldstein, 14 Barton Street, Boston, Mass., is another victory by Henry J. Goldstein. This great medicine has succeeded in many cases where others have utterly failed. Mr. Goldstein says: "I suffered from rheumatism five years, it kept me from business and caused excruciating pain. My knees would become as stiff as steel. I tried many medicines without relief, then took Hood's Sarsaparilla, soon felt much better, and now consider myself entirely cured. I recommend Hood's." Get it today in usual liquid form or chocolate tablets called Sarsatabs.

FRESNO MAY PLAY ORIOLES SATURDAY

The fight for the championship between the Orioles and the Fresno team will probably be decided at a game to be played at Riverside park Saturday afternoon between these teams. All preliminary arrangements are arranged and the Orioles are now awaiting a reply from the Fresno manager. Two games have been played on the Fresno field one having been won by the Orioles and the other by Fresno.

Insist on receipt from your Age Carrier. Phone any irregularity to 182.

SKIN AFFECTIONS

Whether On Infant Or Grown Person Cured By Zemo and Zemo Soap.

AN UNUSUAL OFFER.
The C. E. Anderson Drug Store says to every person, be it man, woman, or child, who has an irritated, tender or itching skin to come to our store and procure a bottle of ZEMO and a cake of ZEMO soap and if you are not entirely satisfied with results, come back and get your money. So confident are we of the efficacy of this clean, simple treatment that we make you this unusual offer.

ZEMO is a clear liquid for external use that has cured so many cases of eczema, pimples, dandruff and other forms of skin eruption. ZEMO and ZEMO soap are the most economical as well as the cleanest and most effective treatment for affections of the skin or scalp, whether on infant or grown person.

SOUR STOMACH

"I used Cascarets and feel like a new man. I have been a sufferer from dyspepsia and sour stomach for the last two years. I have been taking medicine and other drugs, but could find no relief only for a short time. I will recommend Cascarets to my friends as the only thing for indigestion and sour stomach and to keep the bowels in good condition. They are very nice to eat."

Harry Stuckley, Mauch Chunk, Pa.
Pleasant, Palatable, Potent, Taste Good. Do Good. Never Sicken, Weaken or Grip. 10c, 25c, 50c. Never sold in bulk. The genuine tablet stamped C.C.C. Guaranteed to cure or your money back. 506

Every Woman is interested and should know of this new hairdressing spray. MARVEL Whirling Spray. The new hairdressing spray. Best—Most convenient. Lasts—Doesn't wash out. Cleanses—Instantly.

Ask your druggist for it. If he cannot supply it, write to MARVEL Whirling Spray Co., 14 West 29th St., New York.

Must Drape Statue

Washington Society Shocked by Figure of Nude Woman on Lawn.

[Associated Dailies Telegram]

Washington, Oct. 11.—The nude statue of a woman in the garden of Mrs. Albert Clifford Barney, on the fashionable Sheridan circle, this city, has given offense to the delicate sensibilities of Washington people, and Major Sylvester, commandant of police, issued an order to the effect that the statue must be draped or removed. This is the same work of fine art for which Miss Natalie Barney, daughter of the house, posed. The statue was carved from marble by Miss Laura Barney, another daughter, who has a studio in Paris. For two days only the beautiful figure has been allowed to repose unadorned in the garden of Washington's most gracious society leader. It came from abroad, and it is presumed that the servants placed it outside because it could not be wedged inside the house. During these two days, however, great crowds have collected outside the iron fence and peered through at the white vision.

HUGHES ON BENCH

Takes Oath of Office and Court Adjourns to Honor Dead Member.

Washington, Oct. 11.—Ceremonies marking the advent of a new judge of the law and the demise of a famous jurist who had gone before him, constituted the solemn business of the supreme court of the United States. Charles E. Hughes of New York donned the robes of office as an associate justice with all the formalities designed to give dignity to the court, and then with a few words of sorrow expressed by the senior associate justice, John Marshall Harlan, the court adjourned until today out of respect to the memory of the late Chief Justice Melvin W. Fuller.

A FOOD DRINK

Which Brings Daily Enjoyment.

A lady doctor writes "Though busy hourly with my own affairs, I will not deny myself the pleasure of taking a few minutes to tell of my enjoyment daily obtained from my morning cup of Postum. It is a food beverage, not a poison like coffee."

"I began to use Postum eight years ago, not because I wanted to, but because coffee, which I dearly loved, made my nights long weary periods to be dreaded and unfitting me for business during the day."

"On the advice of a friend, I first tried Postum, making it carefully as directed on the package. As I had always used cream and no sugar, I mixed my Postum so it looked good, was clear and fragrant, and it was a pleasure to see the cream color it as my Kentucky friend always wanted her coffee to look—like a new sad die."

"Then I tasted it critically, for I had tried many substitutes for coffee. I was pleased, yes, satisfied, with my Postum in taste and effect, and am yet, being a constant user of it all these years."

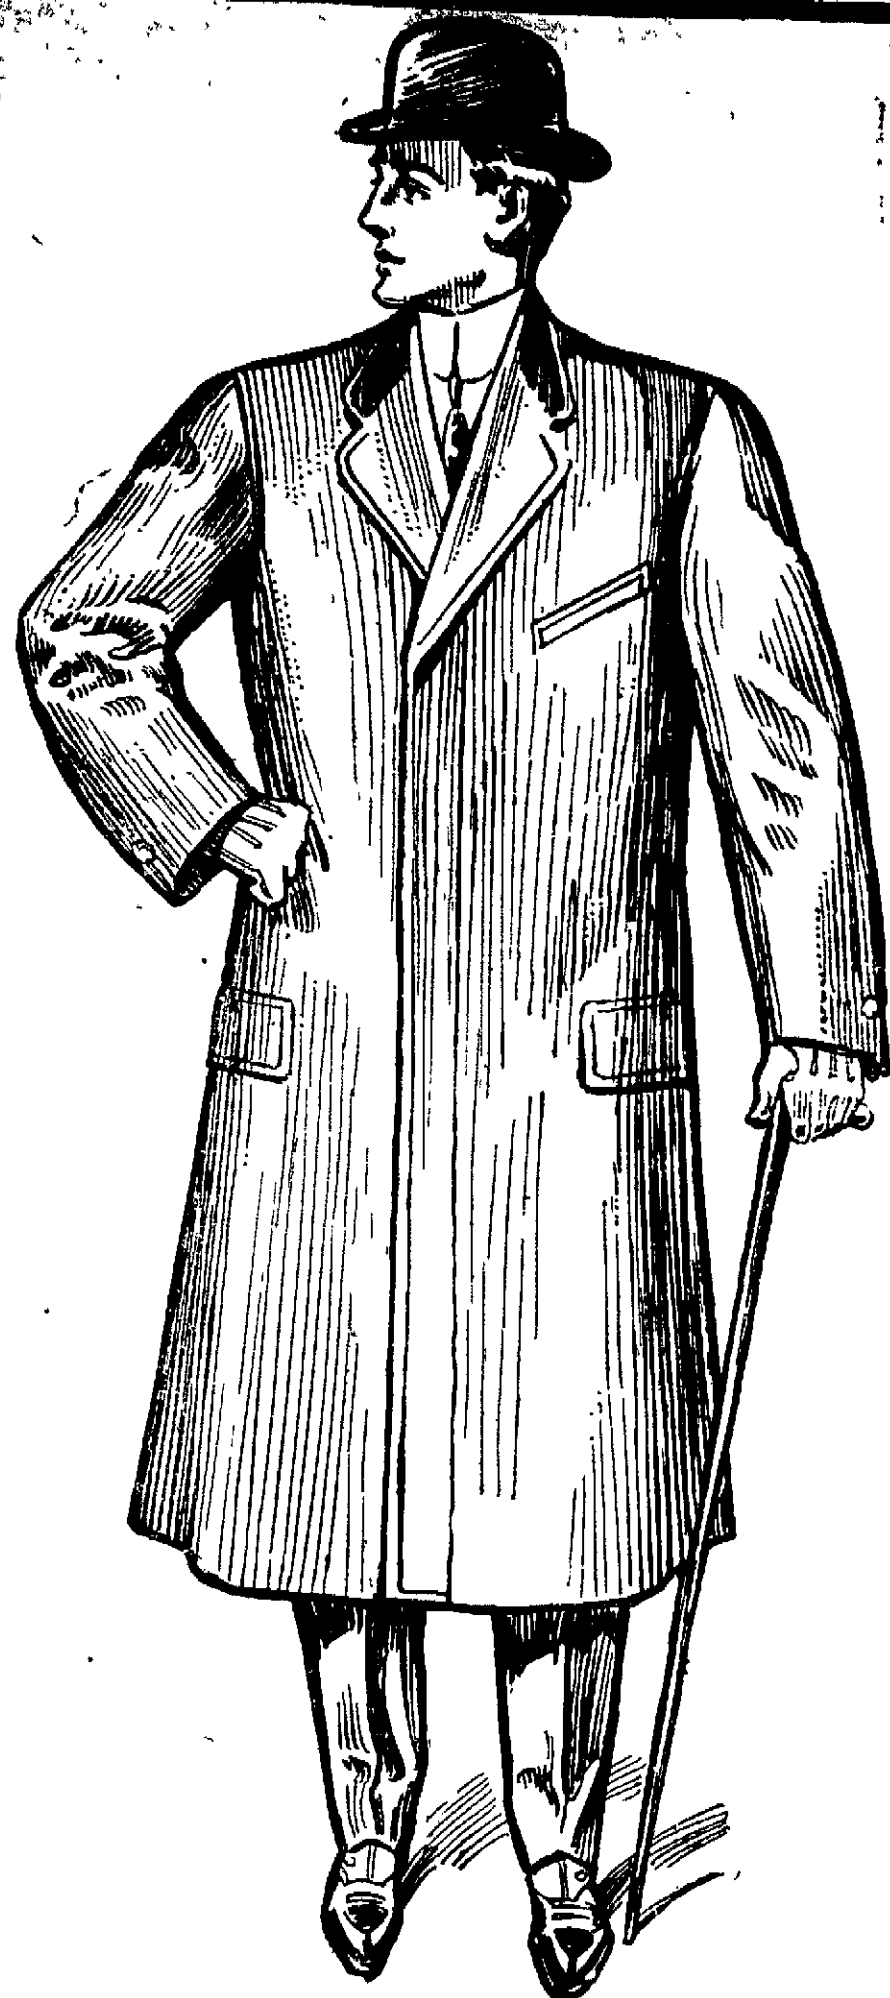

"I continually assure my friends and acquaintances that they will like it in place of coffee, and receive benefit from its use. I have gained weight, can sleep sound and am not nervous." "There's a reason."

Read "The Road to Wellville," in pkgs.

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

5 Per Cent. Looks Good to the Large Investor

We welcome deposits, large and small. Many large investors are regular depositors with us because they know that their money is available at any time and that while hundreds of banks in the United States closed their doors during the 1907 panic, only one small Building and Loan Ass'n failed. With us your money is safe. **The Columbian Building & Loan Company** Ruggery Building, 22 East Gay St. COLUMBUS, O.

County fair week brings big values in things that men wear

What do you need to bring you "up to scratch," Mr. Man-who-cares-for-good-clothes? What is there in your wardrobe that needs renewing? A Suit? An Overcoat? A Hat? Shirts? Or Underwear?

As everybody wants to look his best at this season of the year, and as many of our out-of-town customers do their winter's shopping at this time, we have arranged this special sale where your dollar will double duty. Brand new up-to-the-minute goods that it would be impossible to duplicate at these prices during the rest of the season.

This opportunity is for one week only, so the sooner you avail yourself of it, the better the selection and the fresher the stock.

200 New Fall Suits and 175 Middle-weight Overcoats, worth \$15, \$18 and \$22. Prices for this week only **\$12, \$15, \$18**

Slip on one of these Suits or Overcoats—they have all the style of the very latest models and the wear of all-wool. For they're nearly all made by America's foremost manufacturing tailor—A. B. Kuschbaum & Co., of Philadelphia. That name in itself is a guarantee of correct style and dependability wherever good clothes are worn.

The newest weaves and colorings. And a variety of styles and sizes to fit the most extreme tastes and figures.

Remember. There are only 200 Suits and 175 Overcoats at these reductions. And it's first come, first served.

So be on hand early.

Other exceptional values in Suits and Overcoats at 10, 12, 15, 18 and up to 25 dollars.

Shirts and Drawers, 50c a garment, worth 75c, \$1 and \$1.25.

Of finest quality, good warm underwear—the kind that has been a standard for fifty years and are still recognized as best. We have marked 200 of these Suits to be sold at this price. All sizes.

A Hat for every man—325 of them, worth \$2.50 and \$3.00. Prices for this week only **\$2.00**

\$2.00 Derbies and Soft Hats in a big variety of styles and shapes. These are the same Hats that we have been selling all season for \$2.50 and \$3.00. But our manufacturer had these on hand and we bought them for spot cash at a big saving.

Shirts—75c and \$1, worth \$1.50, \$2 and \$2.50

Just a little over 500 and most all of them the season's very latest patterns.

Plain or pleated bosom—white or colored—cuffs attached or detached—all sizes.

Owing to the extreme prices at which these are marked, no more than six shirts will be sold to any one customer.

A thousand Neckties 37c each, worth 50c, 75c and \$1.

Bows and four-in-hands—a few ascots. Almost two hundred patterns and colors—some plain blacks. Made up for us by a big eastern manufacturer from a lot of silk he had left on hand after filling his fall orders.

LYNDE & GOSSER

"On the Square"

"If you don't buy from us we both lose"

Theatricals

Clara Belle Frac as Houston St. Moll in "Straight Road" at Sixth-St. theatre tonight, Tuesday.

Injustice. Nurse—What's that dirty mark on your leg, Master Frank? Frank—Hurt'd kicked me. Nurse—Well, go at once and wash it off.

Frank—Why? It wasn't me what did it?—London Punch.

Desirous of Curing the Drink Habit.

We are honestly desirous of curing all who are addicted to drink, and if you are interested in any one needing Orline we invite you to write us. Our correspondence is confidential and our replies are sent in plain sealed envelopes. Orline No. 1, is the secret treatment and No. 2, for those who wish the voluntary treatment. \$1 per box. Write for free booklet on "How to Cure Drunkenness." The Orline Co., 436 Orline Building, Washington, D. C. The leading druggists endorse Orline. Sold in this city by C. F. Anderson, 404 Main street.

"The Straight Road Tonight."

The Chicago Stock Co. is back again and at their opening performance at the Sixth Street theatre Monday evening, when they played "Strongheart," one of the strongest American plays ever written, they were greeted by a capacity house and before the first act was well on standing room was sold. "Strongheart" in which Robert Edson appeared with such success a few seasons ago has, since its first production in New York City, met with the approval of probably every theatrical critic in the profession. It is a play truly American and its lines are so clean and pure that it strikes every heart.

It would be useless to comment on the acting of every one of the fifteen or twenty members of the company for each one of them are artists, but the work of Robert E. Dorente, in the title role, whose work has been seen and admired before and that of Miss Clara Belle Frac as Strongheart's sweetheart, cannot be passed over. Both people entered into the parts with their souls and brought out the very best in them. Both are artists of the profession and their work is exceptionally clever.

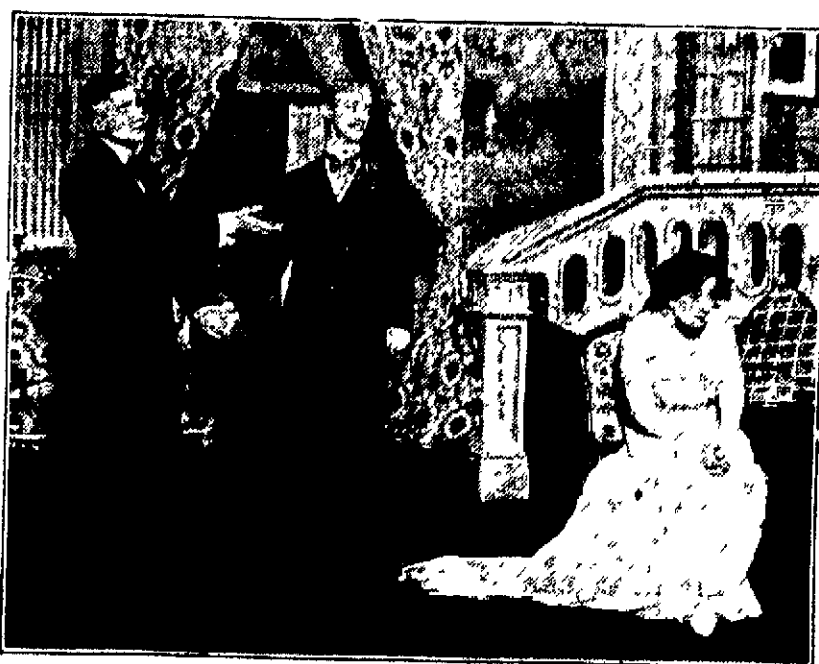

Tonight "The Straight Road," in which Blanche Walsh recently appeared will be produced. It is a play dealing with the slums of a great city. Its lesson is a strong one and one that never fails to reach its mark. With this excellent play billed it is expected that the house will be literally packed from cellar to dome tonight.

AT THE ELECTRIC

If you want to see something really interesting and enjoyable go to the Electric this week and see the bill. It is one of the best little show shops has had on its boards for some time—and that is saying something for they have had some exceptionally good acts on there during the past several weeks.

Price and Love two young people in "age" and appearance but old in the profession, have an original talking and singing act. Both the man and the young lady have peculiarly sweet voices and they have some of the catchiest of the late popular songs. Their jokes and conversation is all new "stuff" and it is taking well.

There have been many strong men in Coshocton since vaudeville opened here but Prof. Valerius "has them all faded." He calls himself "the iron

Scene from "The Step Child" Chas. Klien's great play of Finance and Politics—Wednesday night at Sixth St. theatre.

jawed man and truly it is tough iron. His teeth are close to marvelous.

The pictures for tonight will be better than those of last night which were wonderful. Mr. Loos is still singing the songs that everybody knows.

NEW DISCOVERY

Has Put the Good Old Dirty Mustard Plaster Out of Business.

A box of Begy's Mustarine will banish all many aches and pains as forty mustard plasters.

And only 25 cents for a yellow box full that C. E. Anderson guarantees to cure head, earache, toothache, neuralgia, and pain in chest or back, or money back.

Just rub on Begy's Mustarine; it's better than a mustard plaster, kills all pain and does it faster. It isn't sticky or greasy and won't soil your garments.

It drives soreness from throat and chest; stops irritating coughs, reduces swollen joints, and takes out stiffness and lameness. It's the best all around remedy for all the troublesome aches and pains that are common in every home. It's better than any liniment. Keep a box on hand.

TEACHERS TO HAVE CHARGE OF EXHIBITS

The following teachers are earnestly requested to make preparations to serve at the Educational Exhibit at the fair. Supt. Bryan says it is necessary that each teacher named be on hand to take charge of the manuscripts and keep them in order.

Wednesday A. M. Miss Hootman, Miss Quinlan, Miss Mohler, Miss Duncan, Mr. Preston.

Wednesday P. M. Miss Laurie, Mr. Ridgway, Miss Lonsinger, Miss Norris, L. E. Wontland.

Thursday P. M. Mr. Everhart, R. C. Maston, Miss Almack, Miss Goldie Speckman.

Friday P. M. Miss Margaret Severns, Miss Stella Hall, Miss Estella Moore, Mr. Almack, Mr. McCurdy.

Friday P. M. Miss Leach, Mr. Mowery, Mr. C. W. Maston, Mr. Thresh.

Shaw Wagon Brake

The new idea that works like a charm. It's simplicity is astounding. Works by screw-wheel from any position on wagon, either loaded with hay or empty bed. Sure and safe. The pictures show how easily it works.

At the Fair Grounds

Be sure and see this new safety brake demonstrated.

I also will display modern millwork in my booth at the fair—cabinet work, show cases, doors, sash and all building materials.

THE SPORT OF KINGS.

For generations the racing of fast horses has been the sport royal of all countries, and America has been no exception to produce the animals that have held the records of speed for several decades. Like all other exciting sports, racing has led in many instances to gambling, but then people who want to back their opinions with their cash also gamble on baseball games and about everything else in which there is an element of chance. While gambling is to be condemned, racing should not be misconceived as a gambling game. It is the sport of men of red blood. The races this week at the fair promise to be the most exciting of any held here for years. Clean, honest races without gambling is what the Coshocton fair offers. The complete list of speed entries published in Monday's Daily Age made a hit everywhere. It was the only complete list yet published.

A LAMENTABLE ACCIDENT.

The accidental death by electrocution Tuesday morning of Mr. Chelekis has cast a gloom over the city. Cheerful and happy always, with a zeal for the Christian faith, this Americanized Greek shed sunshine about him. A keen business man he had accumulated a snug fortune in the manufacture of ice cream and candies and his name was a household word throughout the county as well as town. The average man forgets the awful power behind the innocent looking electric wire and too great care cannot be exercised in approaching any seeming irregularity herein. Mr. Chelekis was a good citizen. His passing is widely mourned.

And don't forget when at the fair, to make The Age booth your headquarters, in the auditorium. You are invited to drop in and try the handsome pianos The Age is giving away.

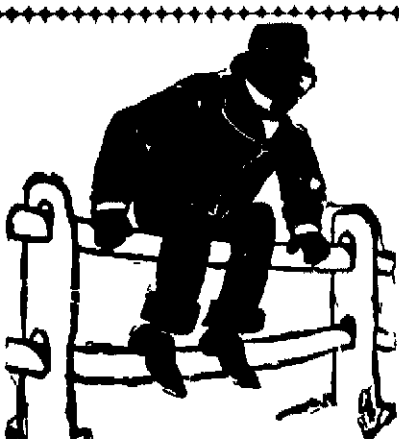

Columbus newspapers are throwing frenzies because some one near there is raising strawberries this fall. Huh, they evidently don't know Dan Valentine over there.

Now if our Cleveland capitalistic friends only had their trolley line in operation how many weary footsteps it would save along South Seventh street this week.

The forest fires should be taught the lesson of conservation which all of us are eager to learn. They are worse than the sawmills.

The wise housewife is she who takes no chances and securely locks the house before she starts for the

SAYS UNCLE HIRAM

I drank some red lemonade at the fair today I don't blame it for blushing.

SAGE OF THE AGE

Geese whizz! The big fairs here at last.

We might give the weather man a vote of thanks, at last.

down for the fair

No fair taking snapshots at that Harmon parade.

By the way have you picked out your fall suit yet?

TEN YEARS AGO

From The Age of October 11, 1900.
Coshocton day the second day of the county fair was a pronounced success and the best Wednesday in the history of the Agricultural society. The weather was all that could be asked, the racing was good and the crowd was in the best of spirits. The officers of the society were highly pleased as were the people who enjoyed it.

Workmen have begun the erection of five new houses for I. B. Dillon of Brower-ave, near the fair ground. They will be four room houses and will be for rent when finished. They will be rushed to completion with all possible speed.

Chief Maple and Officer Hankins interrupted a poker game Wednesday night and a number of players were taken to the city hall. No time has been set for the hearing. The room was crowded and those who escaped were picked up by the police.

The annual reunion of the Fifty first Ohio one of the best regiments of the Civil war is being held in New Philadelphia. Mr. and Mrs. Henry King, Jas. Hay, B. F. Jones, Peter Miller and Win. Carr left last night to attend the sessions and other members of the association went today.

The first of the three mile race at Central Hall rink was won by Clyde Jacobs. Times 3:35. The second mile will be skated tonight and the third Friday night.

For Infirmary Director.

The above likeness is an excellent one of Robert Greer, the well known Coshocton citizen who is one of the Republican candidates for member of the board of infirmary directors, the other two being Charles Wells and Jay Abbott. A vote for any of the three gentlemen is a vote for economy in one of the important boards of the county. The Democratic members this year have made a muddle of it. Put in in entire new board.

CLAIMS HUSBAND PROVED FAITHLESS

Smith (Kane) Van Dyne through attorney L. N. Staats, filed suit in probate court Tuesday asking for divorce from Albert Van Dyne, alleging that he abandoned her June 30, 1907 and has failed to support her and their one-year-old child Dwight, who was born Dec. 25, 1907. They were married Sept. 27, 1903. Mrs. Van Dyne also charges her husband with being too familiar with other women.

HAS WHEELING & LAKE ERIE BECOME PART OF N. Y. CENTRAL?

Has the New York Central bought the Wheeling & Lake Erie? A rumor from Zanesville says that it is in open secret in New York that the New York Central has arranged for the control of the Wheeling & Lake Erie. If the rumor is true it means a great deal to Coshocton.
It is also rumored that surveying parties are working on the new road proposed by the Little Kanawha syndicate to open up the coal and timber lands of West Virginia. The original Ramsey line from Belington, W. Va. to Zanesville to connect with the Wheeling & Lake Erie is to be one of the first links to be completed.

MOTOR CARS AT THE FAIR

An innovation at the fair this year is the line exhibition of 1911 motor cars that two local agencies are showing. The Loos garage is displaying the new 1911 Overland car, and A. L. Crowthers & Son have the new 1911 E. M. F. and Flanders cars there. All are beauties and are attracting much attention.

WHAT IS VINOL?

It Represents Twenty Years' Work of Two Eminent Chemists

After twenty years of study two eminent French chemists discovered a method by which the alkaloids or medicinal elements of the cod's liver might be separated from the useless oil or grease retaining all the good of cod liver oil and dispensing with the bad, as the oil has no medicinal value. These medicinal elements blended with tonic iron and a mild medicinal wine—make Vinol.
Vinol is not a secret medicine, as its ingredients are printed on every bottle and in all cases where the healing strengthening influence of cod liver oil is needed, Vinol will give better results for it contains all the emulsive medicinal properties of cod liver oil, but without the oil and it is easily assimilated and acceptable to the weakest stomach.
For all run-down, weakened conditions, and to cure chronic coughs, colds and bronchial troubles, Vinol is unequalled. We sell it always with the understanding that if it does not do all we claim for it, we will refund the money paid us for it.

(conveniently situated on the first floor) when in town attending the Fair. You'll see counters, cases, shelves and cabinets fairly groaning under the weight of **NEW FALL GARMENTS**. On every side can be seen the very latest style ideas in **SUITS, COATS, FURS, CAPES, DRESSES, WAISTS, SKIRTS, CORSETS, CHILDREN'S GARMENTS, ETC.** You'll find here also — **SALESMEN OF THE SORT YOU'LL LIKE TO MEET**—

giving in **EVERY INSTANCE, PROMPT, COURTEOUS** attention, whether you have dollars and cents to spend or not. **EVERYTHING** will be done to make your visit a pleasant one and if you want to buy — a **PROFITABLE** one — for the values our salespeople will show you will be **BIGGER AND BETTER** ones than you can find in any other Coshocton store.

SUITS! SUITS!

QUALITY AND STYLE CHARACTERIZE our **LADIES' and MISSES' SUIT LINE**. Pains-taking care on our part in purchasing only from reliable Suit Manufacturers with a long reputation for quality and adherence to the dictates of the ruling fashions has made **THIS** store the **SUIT SUPPLY CENTER** for this community. We study the style tendencies with great care and secure only garments which embody every detail of fashion and also those which have enough permanency of goodness to be of service to the purchaser of moderate means as well as to the one with "money to burn." In other words, a **RANSOM \$15 SUIT** will give the purchaser the same ratio of service as the suits costing \$35 to \$40. **YOU GET FULL VALUE FOR YOUR MONEY HERE**, it matters not how much or how little you may invest. The manufacturers who make our Suits, fully understand that we will not accept any garment which is not absolutely perfect in every detail — no item which will contribute to their serviceability or handsome appearance is overlooked. **THE MATERIALS** are the most elegant of the season's favored Suitings in both staple and novelty weaves and shades. We wish to emphasize the superior fitting qualities of the Suits we offer — excellency of workmanship insures shape retaining collars, shoulders and lapels.

We are very enthusiastic about our showing of new Fall Suits at from \$11.98 to \$40, and particularly so about the special values offered during Fair Week at

**\$11.98, \$13.50, \$15.00,
\$16.50, \$19.50,
\$22.50, \$25.00 and \$27.50**

New Skirt Models

in Panama, Serge, Broadcloth and Voile in Black and stylish colors are a big feature at this store. Comparison will prove to you that our Skirt line has not an equal in the city. Prices are very reasonable and styles the very newest.

COATS! COATS!

THE SEPARATE COAT ENJOYS HIGH FAVOR THIS SEASON WITH CAREFUL DRESSERS and we are prepared for the demand with a large and unusually well selected line. This season's styles, as shown in our stock, possesses "smart" fitting qualities, giving to the figure the much desired "willow" effect and elegance of outline. We are showing Coats of both plain and "Mannish" materials in all favored colors and weaves. There is much variety too, in trimmings and collar effects, and fancy buttons are stylishly and freely used on many of the models. Materials, workmanship, linings, trimmings and finish, **ALL** will **PLEASE YOU** and we know you can't begin to match anywhere in Coshocton County the **EXTRA VALUE** put into **RANSOM'S COATS** at the modest prices asked. Day after day — "lookers" become buyers at this store — people who go out to "look around" eventually find their way back here—as a lady remarked to us the other day, "I've been all over this town looking at Coats, and haven't seen anywhere nearly as good a line as you are showing — your prices are much the lowest and your styles the best I've seen."

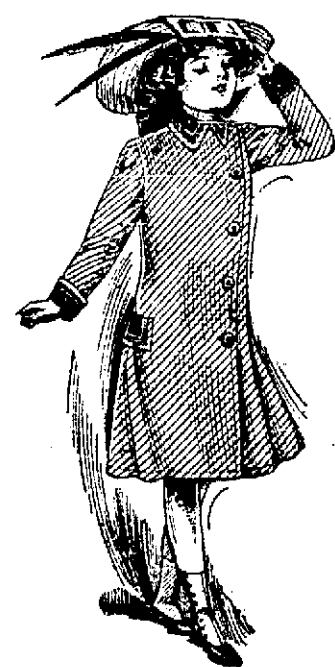

We want you to come and see the Coats we are selling at from \$10 to \$35 and call your attention particularly to the stylish models at

**\$12.50, \$15, \$16.50, \$18.50,
\$20.00 and \$23.50**

The Fall Dresses

which we are showing of Silk, Satin, Serge, Batiste, Crepe, Silk Poplin, Velvet, etc. etc., are distinctive in style and design. They are made in a superior manner of the best materials and are made to fit. You'll notice too, that nothing is omitted that goes to make a high grade garment. The prices are extremely moderate — the range large enough for any purse.

Minute Descriptions are Impossible Here—the Stock is so Large and Varied—Come and See Any Time

CHILDREN'S GARMENTS

of the sort mothers like to buy and children love to own are made a special feature at this store. We take particular pains to please our "little" customers and have ready now a most complete showing of Coats, Caps, Fur Sets, etc., etc., for the children, as well as many other articles for the "wee tots"—the infants. Parents, bring the little ones to Ransom's when in town — we'll take care of their wants and needs in a way you'll like. "Everything for the baby" is the keynote of our buying in this department.

Read These Items Carefully

\$5.00 Colored Silk Waists, in cadet blue, wisteria, navy, red, brown, green and tan, all sizes, Fair Week Special... \$3.50	\$5.00 Black Silk Petticoats of excellent quality, full size and splendidly made, Fair Week Special... \$3.98	Ladies' white Sweater Coats, all sizes, from 34 to 46, sold at 85c, \$1.00, Fair Week Special... 59c	75c Black Sateen Petticoats, full flounce, nicely made, Fair Week Special... 59c

The Ransom Dry Goods Co.
COSHOCTON, OHIO.

Coshocton's Busiest, Best Store

"The Store that Excels in Dry Goods."

Of Interest to Women

TUESDAY.

Meeting of the Ladies' Social Circle of Presbyterian church.

Mrs. Gallagher Will Entertain With Two Sewing Parties.

Mrs. L. P. Gallagher has issued invitations for two thimble parties to be given at her home on Chestnut-st. on Saturday and Monday for the pleasure of her house guest, Mrs. J. L. Custer, of Pana, Ill.

District Meeting Is Postponed.

The meeting of district 1 of the Baptist church which was to have been held Monday evening at the home of Mrs. Henry Robson, was indefinitely postponed.

District 6 Plans to Give Bake Sale.

At the meeting of district 6 of Grace M. E. church Monday evening at the home of Mrs. A. J. Ricketts, arrangements were made to hold a bake sale on Saturday, Oct. 29, at the Timmons grocery. Twenty-eight members of the district attended the meeting.

Wedding Saturday Night at Dresden.

Miss Jessie Adams a well known young lady of Dresden, and Mr. Fred Starned, employed in the woolen mills at that place were married Saturday evening by Rev. J. W. Blair.

Luncheon and Shower For Triniway Bride.

Two very delightful events in honor of Miss Mary Evans of Triniway marked the week-end. The first was a kitchen shower given by Mrs. O. W. Bowman, at which Miss Evans received numerous kitchen utensils, and the other was a luncheon given by Mrs. T. Goff. The marriage of Miss Evans and Mr. Spence, which will be solemnized Wednesday, promises to be one of the most elaborate society events of the early fall.

Frazeyburg Young People Married.

Rev. Ray H. Pierson and Miss Elizabeth E. Reeder, both of Frazeyburg, were granted a marriage license at Zanesville Saturday. Both are well known in the southern part of Coshocton county.

Will Leave Thursday On Hunting Trip.

C. M. Hay, F. K. Woods, Robert Huff, Jas. Preston, and Mr. Call, a representative of the Remington Arms Co., will leave Coshocton Thursday on the Wheeling, for Northern New York, to hunt until the first of November.

Freshmen Organize Literary Society.

President, McKinley Donley Vice president, Margaret Hay Secretary, Mary Stewart Treasurer, Bothwell Crawford Sergeant at arms, Fred Karr The following list of officers was elected at the high school Monday afternoon by the freshman class of the high school, when they organized their literary society. They chose as their motto, "There is no success without honor," and the scarlet carnation will be the society's flower. Scarlet and gold are the colors selected by the organization.

To Attend Triniway Wedding.

Miss Delsie Hanky left Tuesday noon for Triniway to attend the wedding of Miss Mary Evans, formerly of this city, and Lawrence Spence, which will be held Wednesday morning at the home of Miss Evans' parents at Triniway. Tuesday evening Misses Ione Glass, Laura Pettit and Minnie Almack will go down to attend the wedding.

Woman's Music Club to Visit Piano Factory.

Mrs. Jas. R. Johnson, assisted by Miss Carrie Elliott, led the meeting of the Coshocton Woman's Music club Monday evening, at the Carnegie library. The topic of the evening was "The Piano," and, as taken up in the study books compiled by Mrs. F. P. Wardwell, of Connecticut, a study endorsed by the National Federation of Music Clubs—it proved most beneficial and interesting. The evolution of the piano from the harpsichord, spinnet and clavier, was described, and explained. The first piano was invented by an Italian by the name of Bartolomeo Cristofori, in 1709. The first upright piano, however, was made in America—in New Jersey, a number of years later.

MOTHERS NEED Scott's Emulsion

Many mothers have learned how much they needed

Scott's Emulsion

by taking it to show their children that it was a sweet medicine.

For thirty-five years it has been the best known specific against fatigue and enfeeblement, as well as the standard remedy for warding off and removing colds and affections of the throat and lungs.

In order to make the study of the piano and its mechanism more clear, the club has decided to ask the permission of the Compton-Price Piano company to go through their factory, and see the modern instrument in the making.

All associate members of the club are invited, and expected to attend the study meetings, as well as the open sessions. There seems to have been some misunderstanding in this regard, and the active members are anxious to have the full membership present, as far as possible, at all of the meetings.

The next session of the club will be held in two weeks, and will be a piano recital, in charge of Mrs. McMichael.

Business Meeting of Boys' Club.

Monday evening the members of the Boys' Club of the Church of Christ held a short business meeting at the church, and discussed plans for their hockey team which is to be organized soon. The gymnasium is being fitted up for the purpose of playing the game, and the boys are taking a great deal of interest in the sport.

Surprise for Miss Elder.

A number of intimate friends of Miss Ann Elder, who leaves Saturday morning for an extended tour of the west, surprised her Monday evening at her home on North Third-st., by congregating at her home to spend the evening. The affair was most enjoyable, and during the evening refreshments were served. Those present were Misses Lina Madden, Mary Crouch, Elizabeth and Ella Williams, Lena Ayers, Nell Swihart, Lulu Wright, Mrs. Geo. Eastlake, Rhoda Farnell, Alva Hawk, Nellie Frye and Jennie Ruby.

Miss Curll's Wedding to be October Event.

The many Coshocton friends of Miss Carolyn Curll, of Pittsburg, will be interested in the announcement of her approaching wedding, which is to be an event of Oct. 18, at the Rittenhouse, in Pittsburg.

Miss Curll is an unusually attractive young lady, and has visited in Coshocton, at the home of Mrs. Garvey Gayle (Marie Hay), with whom she attended National Park seminary. Mrs. Gayle who is now visiting in Coshocton, is planning to attend the wedding.

L. C. B. A. Met With Miss McCarton.

Monday evening Miss Anna McCarton entertained the members of the L. C. B. A. of Sacred Heart church at her home on Main street. Progressive poetry was played during the evening, as the result of which Mrs. James Carlon was awarded the prize for the highest score, and Miss Bertha Beck received the consolation. Refreshments were served.

Surprise Party Monday Evening.

Norris Coates was completely and most agreeably surprised Monday evening, upon arriving at his home at the corner of Burl-ave. and Orange-sts., to discover all his fellow workmen at the Pope-Gossett pottery assembled, prepared to spend the evening. Mr. Coates has been foreman of the clay shop at the pottery since 1903, and has been very popular with the men in the shop. On account of ill health he and his family will leave soon for Spokane, Washington, to make their home and for this reason, and as a demonstration of the high esteem in which he is held, the surprise was held. The men presented him with a handsome gift. Refreshments were served. There were between 30 and 35 present.

Those present were Clarence Eaton, Walker Willis, James Duffy, Ed ward Doud, F. J. Flowers, George Weaver, Arthur McDevitt, Harry Bennett, James Weston, Carl Emmert, Lue, Ben Ode, Frank Dye, Frank White, Ammon White, Vin Hamilton, Chas. Smith, Walter Smith, Chas. Martin, Lottie Wyland, Chas. Higgins, Ray Wheeler, Alford Perher and Carl Hendricks. The presentation speech was made by Jas. Duffy.

Guests Here For The Fair.

Mrs. Wm. Dickey and Mrs. L. M. Barrick of Carnegie, will be guests of Mrs. Jennie Wertz in the Schlatz flats, during the fair. Miss Amy Ogg of Mt. Vernon will be Miss Elizabeth Williams' guest this week.

Ministerial Association Elected Officers.

Rev. Jay C. Goodrich was elected president of the Ministerial association at the meeting which was held Monday morning at the Carnegie library. Rev. Brown was chosen as vice president and Rev. Hammond will fill the office of secretary. The association will hold its meetings in the future on the second Monday of each month, at 7 o'clock.

A conference of all of the superintendents of Sunday schools and of the pastors of the various churches of the city will be held October 19 at the Presbyterian church.

Mrs. Darr Was Honored Guest

A number of the friends and neighbors of Mrs. Prudential Darr gathered at her home in Roscoe Monday evening to spend a few hours with her, as she will leave soon for her new home in Jackson township. A delightful evening was spent and

refreshments were served. The honored guest was given a number of useful presents. Those who enjoyed the occasion were Mrs. Geo. Clark, Mrs. Joe Snedeker, Mrs. Martha Klerker, Mrs. J. D. Schott, Mrs. J. Leetellier, Mrs. J. M. Carhart, Mrs. Ben Jacobs, Mrs. Geo. Sykes, Mrs. Jeff Foster, Mrs. Funk, Mrs. Park, Mrs. Howard Fennell, Mrs. Chas. Randle, Mrs. Wm. Shrigley, Mrs. John McCullough, Mrs. Ed. Shrigley, Mrs. Ed. Jacobs, Mrs. John Stiles, Mrs. Floyd Smith, Mrs. Chas. Fennell, Mrs. John Shrigley, Mrs. Ed. Ostler, Mrs. Davis, Mrs. Robert Davis, Mrs. Archie Hedge, Mrs. Martin Miller, Mrs. Harrie Schott, Mrs. J. A. Cornell, Mrs. Isaac Smith, Mrs. R. H. Hooker, Mrs. Chas. Blinnig, Mrs. A. C. Kaser, Louise Schott, Esther Leetellier, Lucille Cornell, Edna Strahn, Doris Fennell, Olive Schott, Myrtle Schott, Gannet Harris and Wauwetta Foster.

Miss Galvin Left Today.

Miss Ella Galvin, who has been housekeeper at the parish house of Sacred Heart church for a number of years, left Tuesday for her new home in Cleveland.

Left for Ann Arbor.

Quincy Adams of Warsaw left Monday for Ann Arbor, Mich., to enter the university of Michigan, where he will enter the forestry department.

Birthday Party for Miss Florence Goodman.

Miss Florence Goodman was honored with a surprise party Saturday evening at her home on Second-st., the occasion being in celebration of her 13th birthday. Refreshments were served by Misses Sarah, Bertha and Laura Goodman, assisted by Misses Edna Miller and Lillis Geiger. Miss Goodman received a number of attractive presents. Those present were Misses Eleanor Haulsel, Marjorie Martier, Della Hartman, Marjann Kuntz, Eloise Martier, Jennie Hartman, Alva Martier, Ruth Brown, Maudie Kinney, Ruth Elliott, Alma Kane, Nellie Lorenz, Thelma Ebel, Frances Sundheimer, Vera Ebel, Leone Zugschwert, Mary Mitchell, Theresa Beck, Clara Beck, Messrs Wm. Zugschwert, Walter Jordis, Clarence Bales, Opha Bales, Edward Heiser, Ray Lightell, Mr. and Mrs. Itchenud Beck, Mrs. English, Mrs. Lorenz, Mrs. J. W. Vance and her guest, Mrs. M. C. Hawley of Lisbon, Ohio.

Theatre Party Monday Evening.

Mr. and Mrs. C. E. Ransom, Sr. and Mrs. C. E. Anderson, and Mr. and Mrs. Wm. R. Lynde, composed a party at the Sixth Street theatre Monday evening, to witness the performance of "Strongheart" as played by the Chicago Stock company.

Trovinger-Watson Wedding Solemnized Tuesday Afternoon.

The wedding of Miss Nellie Trovinger, the attractive daughter of Mr. and Mrs. A. C. Trovinger of the Plainfield road, and Sylvester O. Watson, of Zanesville, was solemnized on Tuesday afternoon at 3 o'clock at the home of the bride's parents. The Rev. Jay C. Goodrich was the officiating clergyman. The ceremony was very simple, the bride and groom being unattended. Miss Trovinger is one of Coshocton's popular girls, and is a graduate of the Coshocton high school, being a member of the class of 1904. Mr. Watson is a member of the faculty of the Meredith college at Zanesville, and following a short wedding trip, the bride and groom will make their home in that city.

Miss Darnes Was Hostess.

Monday evening at her home on South Seventh street, Miss Fern Darnes entertained the members of her sewing club. Following several pleasant hours devoted to sewing, the hostess served delicious refreshments. Among those present were Misses Caroline Graeper, Leone Hogan, Ruth Hay, Clara Johnson, Margaret Canton and Mary Almack.

Rev. Fr. Goebel Arrived Today.

Rev. Fr. Goebel, who is to take charge of the Sacred Heart parish arrived in Coshocton Tuesday noon from Woodfield, his former charge, coming on No. 19, via Newcomerstown. Fr. Goebel will take up his duties at once, and the usual services will be held next Sunday at the church.

Meeting of Parsonage Committee.

Tuesday afternoon a meeting of the parsonage committee of the M. E. church met in the church parlors to look after repairs on the parsonage.

Returns From Vacation Trip.

Mr. and Mrs. M. L. Hanger of Nellie returned Tuesday afternoon from a delightful vacation, visiting friends and relatives in Mt. Vernon, Danville and Columbus. Mr. Hanger's mother, Mrs. Jos. Hanger, accompanied them to Mt. Vernon from Danville, and is now a guest at the Hanger home in Nellie.

Bryan-Noble Wedding To Take Place Soon.

A marriage license was issued Tuesday to Miss Mattie Bryan of Coshocton, and Fred Noble, a boiler maker of Alliance. The wedding is to

SEVERE PAINS AFTER EATING

CAUSED BY FORMATION OF GAS IN THE STOMACH.

This South Bend Man Was Cured by the Tonic Treatment with Dr. Williams' Pink Pills.

In cases of weak stomach where the patient is pale and the blood thin, the first step towards restoring the activity of the stomach is to improve the condition of the blood. A supply of rich, well-oxygenated blood is necessary to the process of digestion and with it, if errors in diet are avoided, nature will work a cure. This is known as the tonic treatment for indigestion.

This tonic treatment with Dr. Williams' Pink Pills, which builds up the blood so that it can nourish and strengthen the weakened digestive system, has made hundreds of cures in the most severe stomach disorders.

Mr. H. E. Swope, of 1701 Miami street, South Bend, Ind., is one of those who endorse the tonic treatment for indigestion as a result of personal experience.

"I had stomach trouble for several years," he says, "and would be belated from a week to ten days two or three times a year. I had no appetite, food distressed me, causing gas to form, and I had pains in the stomach after eating. During my sickness I always had severe pains in the front part of my head and dizzy spells. I couldn't sleep well and was generally in a run-down condition.

"My doctors did not seem to help me as I kept on having the sick spells. I also tried using medicines with no benefit. I was living at Warsaw, Michigan, at the time and was advised to try Dr. Williams' Pink Pills by a druggist there. In a few days I noticed they were helping me and I kept on with them until they made a complete cure. I can now eat without distress and have had no return of my stomach trouble since."

The processes of digestion are controlled by the blood and nerves and medical science has produced no better digestive tonic than Dr. Williams' Pink Pills.

Every dyspeptic should read "What to Eat and How to Eat." Write the Dr. Williams' Medicine Co., Schenectady, N. Y., for a free copy.

Dr. Williams' Pink Pills are sold by all druggists, or sent by mail, postpaid, on receipt of price, 50 cents per box; six boxes for \$2.50.

Coshocton Man Marries New Guilford Girl.

A marriage license was issued on Tuesday to Elmer Deering of Coshocton, and Miss Virginia Bible of the New Guilford vicinity.

MANY FAKIRS ASK PRIVILEGES

Mayor Cassingham has been besieged all day Monday and Tuesday by persons seeking privileges to operate in the downtown section during the fair. Many have been located on the side streets near the Main-st. corners. Fourth and Main is considered the best location.

The mayor is keeping Main-st. clear of stands of all kinds from Third-st. to Sixth.

For the Fair.

Wednesday evening the Broome & Herbig Co. will close down for the remainder of the week, for the employees to attend the fair.

Police office closed at noon Tuesday for the rest of the week.

Circaret

UNUSUALLY HEAVY ENTRIES AT THE FAIR

"You never saw such a bunch of stuff in your life as there is to be at the fair this year" said a merchant to an Age reporter Tuesday. The grounds are packed with tents of all kinds of displays and the farm products. The only department that is not more crowded than last year is the speed entries, and yet the lists are as big as normal and some of the best horses in the country are here.

The fact that Lancaster and Bucyrus fairs had men at Newark offering to pay freight on race horses, drew several to those towns.

The grounds are a hive of busy men today getting booths and tents ready for the real opening tomorrow. Today there is an admission charged, for the first time on a Tuesday. The crowd is light of course.

The Straight Road.

This evening at the Sixth Street theatre the Chicago Stock company will give the first production ever given in this city of Clyde Fitch's wonderful story of slum life in New York, "The Straight Road." The play was originally written for Blanche Walsh, who enjoyed a prosperous run with the play at the New Astor theatre, (Broadway and 47th street), New York City and later in the leading cities of the United States.

As a dramatist America has never produced a more masterly or successful writer than Clyde Fitch, and by many "The Straight" was considered his masterpiece. There are many suggestions in the play, as well as the creation of the leading character, which came from the star, Miss Walsh, who knows the life of the slums in New York from her childhood, as in those days her father was warden of the Tombs, and she grew up familiar with every side of what is now called "the under world."

The story deals with the life of a woman of the streets, known as "Houston Street Moll." A certain lady, known as Miss Thompson, is at the head of a mission house in Hester street, and the first act shows the principle characters in a tree-for-all street fight.

A wonderful plot is developed, which while clothed in the vernacular slang of the streets, strikes home to all classes. It tells a heart story and once seen will never be forgotten.

WATCHMEN NAMED FOR FAIR WEEK

Mayor Cassingham has appointed the following special watchmen for fair week:

Main street crossing, John West Cambridge street, Richard Walker South lawn, Thos. Scott.

NEW SONG IS WINNING FAME

A letter received from the management of the electric theatre at New Lexington states that the blues of Evan O. Evans' new song "The Girl From The Buckeye State" made a big hit at that place.

DIVORCE GRANTED.

Mary B. Carnes was granted a divorce from Walter Carnes by Judge Ashmun Tuesday on the grounds of gross neglect of duty and adultery and restored to her maiden name, Mary B. Owens. The case was not contested. J. L. McDowell represented the plaintiff.

Get subscribers' list on receipt when you pay your bill.

CHELEKIS KILLED

Continued from Page One
Pres. Himebaugh of the Light Co. arrived home this afternoon from Columbus, and was seen by an Age reporter immediately after his arrival. "I really have nothing to say about the most unfortunate matter," he said, "as I know nothing at all of the circumstances. It is most regrettable however that Mr. Chelekis, who was an estimable man, had such a tragic end. I am shocked and grieved over the affair, and shall at once investigate fully."

The query that is interesting people on the street, is why was not the boy killed who first touched the switch? One theory is that Mr. Chelekis' shoes were wet, thus forming a first class conductor, as water will lead electricity very rapidly. Others declare that the boy undoubtedly got the same shock, but had a stronger heart.

HOUSE BROKEN INTO AT NEWCOMERTOWN.

NEWCOMERTOWN, Oct. 11.—The residence of George Art at this place was broken into by supposed thieves last Saturday night. They rummaged the house, but nothing of value was taken with them. The family was absent from the house at the time.

COMMISSIONERS ASKED TO ENDORSE CELEBRATION

This afternoon a committee of business men and citizens waited on the county commissioners at the court house, and asked them to authorize the Coshocton Elks to go ahead with a big celebration for Coshocton county's 100th birthday next spring.

The Elks do not seek exclusive right, but want every lodge, grange and organization in the county to lend a hand and help make the celebration the biggest in Ohio. It is necessary that some one be placed in charge and the signal success the Elks made of the Fourth of July celebration last year makes them the logical people to turn to.

The plan is to have a six days' celebration, with special days set for various lodges and organizations as their special day. Parades, band music, free entertainments, live Indians, menageries, and possibly a big spectacular pageant representing early life here between the whites and the red men will be essayed. The board gave no reply as Mr. Smith was absent. Judge Nicholas was the spokesman.

New Baby List.

Born to Mr. and Mrs. Chas. McGiffen, of Plainfield, a son Tuesday afternoon.

W. & L. E. Annual Michigan Excursion, Oct. 12.

Return limit, Nov. 6, 1910. One and one-half fares for round trip to all points on Ann Arbor, D & H, Pere Marquette and certain stations on Michigan Central and Grand Trunk. Bys Stopover allowed at Toledo on return trip. For further information see E. E. Eckert, Agent.

4-St

Miss Galvin who has been book keeper at the parish, will leave Wednesday for Cleveland where she will visit her sister and after spending a few weeks there will go to Pasadena, Cal., where she will make her future home.

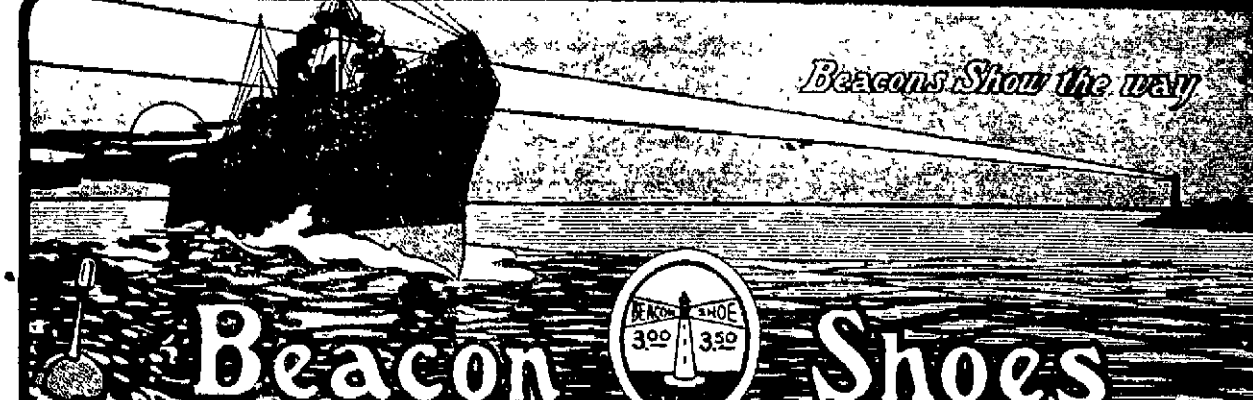

NEW PHILA GIRL GETS LETTER FROM "BLACK HAND"

New Philadelphia, O., Oct. 11.—Jennie Crescio, aged 16, pretty daughter of Charles Crescio, of New Phila is under protection of the police for fear she may be stolen.

Today she reported that she received an anonymous letter threatening her with death if she would not leave with a certain man, who, it is said, has been following her at night. The letter writer says the girl will meet a watery grave if she does not leave with him.

Miss Crescio has received threatening letters before.

Ayer's Sarsaparilla Cleanses

Beacon Show the way

Beacon Shoes

3.00 3.50

Beacon Shoes are for those who know what shoe comfort ought to be, who insist on best quality and are fastidious about style, yet who are averse to spending \$5.00 where \$3.00 will do as well. Beacon prices bring shoe values which usually sell for \$5.00 and more.

Genuine oak-tanned soles, genuine Goodyear welt, hand-sewed process. Uppers in Russia, Calif. Gun Metal Calif, Velour Calif, Vici Kid, Patent Colt, and all other leathers that are being worn by careful dressers in the great style centers.

Every Pair is UNION MADE

Come in and see our new Beacon models. They will not only show you what is latest in Metropolitan styles, but will give you new ideas of shoe-fit and comfort.

WALKER & LAWRENCE

DEAD IN FIRES

Nearly Two Hundred Bodies Have Been Recovered
—Property Loss \$100,000,000.

[Associated Dailies Telegram]
Rainy River, Ont., Oct. 11.—Of the 5,000 people gathered here, very few dreamed that they would live to see another sunrise. They were the 2,000 residents of the town and the 3,000 or more refugees quartered here at present.

The wind sprang up with a suddenness which was appalling, and the town started to burn in a dozen places at once. The men rushed to the flames, but the velocity of the wind increased and their efforts, even with the recently installed high pressure water system, proved of no avail. Then with the same suddenness with which it had arisen the wind dropped to a calm. Later the wind rose again, breaking into timber belts which had previously escaped, and even burning out the land which has been ravished by the flames during the past few days.

There are fully 5,000 square miles of timber on fire, if not a larger area, and reports of the finding of bodies are being received every few minutes. The dead will number 500, is the general belief, but General Superintendent Cameron of the Canadian Northern railway, who has spent three days in the districts on fire, says the estimate is far too conservative, and in support of this statement is the fact that so far no systematic search has been made of bodies, although there are over 100 in the morgue at Beauport, and they have been taken from the vicinity of that town. Three days ago fire burned over the thickly settled district between here and Stratton, but so far only a handful of refugees have arrived from there, and the others can not be heard of in any of the other towns to which people fled for safety.

REFUGEES IN WANT

Canadian Cities Prepare to Rush Supplies to Fire Victims.

Winnipeg, Oct. 11.—Appeals for assistance from several of the towns have been received by Mayor Evans, and he is preparing to send food and clothing at once to the destitute. C. H. Land, a passenger who arrived here, said the conditions were frightful. In one place, near Beauport, he saw 18 bodies piled in a heap. Others he saw crawling on their hands and knees in ditches to escape the terrible heat.

"Brother, it's hell down there," said Engineer George Smith, who brought his train in after a perilous trip through the fire zone. "If she keeps on there will be mighty little of the population left in that part of Minnesota. It quieted down, but it only needs a little puff of wind to turn the whole of that country into a raging hell. It is indescribable."

"From where we in the engine were it seemed that every lumber mill in the country had been burned except that of the Shovel-Matthew company. All the lumber in the yard, however, was burned. All the ties of the road have been charred and the country is level with the tracks."

Returned to Ruined Homes.
"We stopped every little while to take on some people, but the most of them stopped on just outside of the danger zone, so that they could immediately go back to what was left of their homes after everything subsided. If they can kill the flames before another breeze springs up there is hope for everything, but if another breeze comes up, God help the country."

Mrs. Parsons of War Road arrived on the train from Duluth, accompanied by her small son, and all that remained of her belongings were in a small suitcase. She said: "Two trainloads of people left War Road after midnight, but we do not know whether they reached a place of safety or not. It is a pitiful thing. Everyone who has a revolver is carrying it. The survivors are desperate and a great deal of vandalism is rife. Men are robbing women of their jewels. If a high wind arises nothing can save the town of War Road."

FREE PACKAGE CURED AT HOME

Instant Relief, Permanent Cure—Trial Package Mailed Free to All in Plain Wrapper.
Many cases of piles have been cured by a trial package of Pyramid Pile Cure without further treatment. When it proves its value to you, get more from your druggist at 50 cents a box, and be sure you get what you ask for. Simply fill out free coupon below and mail today. STATUS OF JEW IS NOT DECIDED

Separate Christian Church Meets With Little Favor—Episcopalians are Divided.

[Associated Dailies Telegram]
Cincinnati, O., Oct. 11.—Interest was aroused at the session of the triennial general Episcopal convention over the reports on work for the conversion of the Jews. The committee of house of deputies described the proposed separate church for Hebrew Christians as a means for perpetuating, not terminating, the aloofness of the Jew from the Christian.

Rev. Dr. William H. Grosvenor, of New York went farther in expressing his views that it was unjust to single out for special effort the race to which Jesus Christ was born. He said: "The Jew knows what the Christian has been to him during the century. It has not been a history of joy. He has suffered inquisition, persecution and herding into ghettos in America. For the first time in the history of his race since the fall of Jerusalem he finds an open door and is doing his best to fit into American institutions. I am the pastor of a parish of the greatest Jewish city in the country. I would gladly teach any Jew who wants better knowledge of Christ, but the time for special propaganda, for corporate resolution concerning the Jew from such a body as this, is past. The only way for the Hebrew ever to come into the unity of the church is after he has had a few centuries of Christian tolerance, love, charity and justice."

The house of bishops also decided that the Jews converted to the Episcopal faith may continue the Jewish rites, festivals and ceremonies as his racial and racial traditions, provided they do not do it as a matter of religion.

Differ as to Name.
There was some discussion about dropping "protestant" from the name of the church, as many of the leading clerical and lay authorities favor the adoption of the "Episcopal Church in the United States of America" in preference to "The American Catholic Church," as proposed at the last convention. It is not likely that the name will be changed at this convention, however.

It was decided to arrange for a celebration in 1911 of the three hundredth anniversary of the first publication of the King James version of the Bible.

The mooted subject of the canons on divorce were taken up by the house of bishops. The question of whether or not the canons on marriage and divorce shall be revised and modified will be disposed of later. At present they provide against the remarriage in the church of persons who have been divorced, but there is a wide difference of opinion on the subject among the clergy.

Sick List.
Jerry Fowler's condition remains practically the same as Monday. He is unconscious and is taking no nourishment, the hypodermic having been abandoned.

New Prudential Agent.
B. F. Williams, of this city, has been appointed local representative of the Prudential Insurance Co., succeeding Samuel Evans, who has resigned.

The report circulated here that the Fresno-Oroville baseball game last Saturday had been called off, is vigorously denied from Fresno. A message to The Age says the game was played and resulted in the lopsided score of 21 to 2 in Fresno's favor.

DO GOOD NOW.
If you do not now the good which you can, the time will come when you cannot do the good which you would.—Frederic H. Hedge.

Nearly everybody in Coshocton county reads the Daily Age.

SCANDAL FOLLOWS SLUGGING CONTEST

Major League Players to be Barred From Prizes in Future.

Cincinnati, O., Oct. 11.—Nerve again will be the players of either the National or American league get an opportunity to fight for a prize. The odium following the race between Napoleon Lajoie and Ty Cobb for the premier batting honors has put the kibosh on all future donations. While Chairman Herrmann of the national commission refused to be interviewed on the subject, it is known that he is somewhat riled. Herrmann hinted that both Lajoie and Cobb might have been shown favors by other teams and the only way to prevent future trouble of this kind will be to refuse offers of the same order.

What action, if any, is to be taken by the national commission, is not known. The commission will hardly investigate the charges that St. Louis infielders laid down on Lajoie's hit last Sunday.

On the Square, Says Larry.
Cleveland, O., Oct. 11.—"Every bit I made in the double-header played in St. Louis Sunday was made on the square," said Napoleon Lajoie. "I did not speak to a St. Louis player about my batting average. I asked no favors from anyone and worked my head off to make the safe delivery collected." By his feat at St. Louis Lajoie beats Ty Cobb of Detroit for the batting honors of the major leagues and an automobile as a prize.

Want Marines to Protect Property

Honduras Take Possession Of Mines and Threaten Consul.

[Associated Dailies Telegram]
New Orleans, Oct. 11.—According to private cablegrams received in this city, Hondurans have taken possession of American interests upon the west coast of Honduras, near Amalapa.

Soldiers under direct command of Commandants Mapal of the Amalapa barracks, the radical anti-foreign leader, have seized American mines and driven off the workmen. The mine foremen have sent tugs to the United States gunboat Princeton, anchored off Amalapa, with the request that marines be landed to drive off the Honduran soldiers.

One report from Honduras said that followers of the Amalapa commandante had attacked the United States consul. A state of anarchy continues to reign in the Amalapa district.

Doings In Ohio

Live News From All Parts of the Buckeye State

Columbus, O., Oct. 11.—In line with a suggestion from Warden Jones of the penitentiary, the legislature will probably be asked to move the female department of the prison to the new institution for the criminal insane at Lima, the idea being to utilize a separate wing there for that purpose. It is argued that this plan would be a great saving to the state, as it would obviate the necessity for erecting a separate prison for women, which would cost in the neighborhood of \$100,000.

Corporations Hard Hit.
Columbus, O., Oct. 11.—Ohio corporations, in making their report of gross receipts, can not hold out any part of their earnings from the tax commission, according to an opinion given the commission by Attorney General Denman. The tax commission sent the attorney general a long list of corporations which had not put into their reports a number of sources from which money was received during the year.

Runaway Fatal to Woman.
Shelby, O., Oct. 11.—Mrs. John Stowe, 52, was killed in a runaway accident. The bridle bit broke and her husband, jumping out, attempted to stop the horse. The animal broke away and Mrs. Stowe jumped from the buggy, which was being dragged along by the horse at breakneck speed. She sustained a fracture at the base of the skull, causing concussion of the brain.

Louisiana to Be Represented.
Columbus, O., Oct. 11.—The Historical Society of Louisiana wants to join with Ohio in the Perry's victory centennial celebration. Secretary Huntington wrote the society that the Ohio commission would be glad to have it take a part in the affair. The Louisiana society will request the governor of that state to appoint a commission to represent it at the celebration.

Gets Name on Ticket.
Columbus, O., Oct. 11.—Judge John H. Pyle of New Lexington has lost out in his attempt to keep the name of his Democratic opponent, Edward B. Follett of Marietta, off the ballot, on the ground that he was not legally nominated. Attorney General Denman decided that Follett's nomination was valid and that his name should go on the ballot.

Veteran Engineer Killed.
Newark, O., Oct. 11.—Nell Floyd, one of the oldest engineers in point of service on the B. & O. railroad, was instantly killed in the yards in this city. He had just left his engine and was walking along the track when he was run down and crushed so badly that he died within a few moments.

Death Ends Joy Ride.
Toledo, O., Oct. 11.—Christopher Hoffman, general agent of the Buckeye Brewing company, who with seven others was injured in a joy ride when their automobile collided with a horse and buggy here, died at St. Vincent's hospital. Two others are probably fatally hurt.

Triplets Doing Well.
Youngstown, O., Oct. 11.—Mr. and Mrs. Frank Bologna are the parents of three handsome little sons. The mother and youngsters are doing well. The children weigh 7 1/2 pounds each and will live. The father is a well known expert steel worker.

Pick Senatorial Candidate.
Mt. Vernon, O., Oct. 11.—At the Seventeenth Twenty-eighth Republican senatorial convention John P. Lennon of Millersburg was nominated for state senator to oppose W. S. Gray, also of Holmes county, the Democratic candidate.

Labor Federation Meets.
Hamilton, O., Oct. 11.—The Ohio Federation of Labor is in session here, with 250 delegates in attendance. John E. Walker of Dayton was elected president and F. M. Steffen of Cleveland secretary-treasurer.

Ohio Librarians Meet.
Columbus, O., Oct. 11.—More than 200 librarians are in attendance at the sixteenth annual convention of the Ohio Library association, which opened here this morning and will continue until Thursday evening.

Reaching the Top.
In any calling of life, demands a vigorous body and a keen brain. Without health there is no success. But Electric Bitters is the greatest Health Builder the world has ever known. It compels perfect action of stomach, liver, kidneys, bowels, purifies and enriches the blood, tones and invigorates the whole system and enables you to stand the wear and tear of your daily work. "After many months of suffering from Kidney Trouble," writes W. M. Sherman, of Cushing, Me., "three bottles of Electric Bitters made me feel like a new man." 50 cents at C. E. Anderson's and C. W. Ferguson's, Roscoe.

Germany Takes Action.
Berlin, Oct. 11. The government has instructed the German minister at Lisbon, who is now on a leave of absence, to return to his post immediately and to enter into semi-official relations with the provisional government with a view to safeguarding German interests.

Cures Rheumatism; Destroys Uric Acid

The Antidote to Uric Acid Found Gives Remarkable Results.

Immediate relief to rheumatic sufferers, and an absolute, quick, safe cure. This is now assured, for the antidote to uric acid has been found.

This antidote, moreover, is as safe as the air you breathe, yet it destroys every particle of uric acid in the blood and in every tissue, joint, muscle and part of the body.

Mrs. D. G. Hurd of Fulton, New York, says "For 7 years I had excruciating chronic rheumatism. I had to be wheeled around in a chair. Doctors said there was no hope. I began to take 'Fuss.' The first dose acted like magic, and about 3 bottles of it cured me completely."

"Fuss" contains no cocaine, opium, morphine, chloral, ether, chloroform, codeine. It is guaranteed safe. A wonder, too, for gout, lumbago, and kidney trouble.

"Fuss" Rheumatism Cure sold at \$1.00 a bottle in Coshocton by C. E. Anderson and by all leading druggists, or will be sent prepaid on receipt of \$1.00, or 6 bottles for \$5.00, by the Fuss Remedy Co., Flint, Mich.

Debt of Christian Church is Wiped Out by Conference

Good news for the membership of the Seventh-St. Christian church, the conference at New Alexandria last week decided to wipe out the small debt that has been hanging over the Coshocton church.

The delegates to the conference returned home Monday evening on No. 3—Rev. Hammond, W. J. Wright, L. H. Reed and Mr. and Mrs. John L. Shaw. The delegates from the Willow Brook church were: Rev. J. W. Wright, Wm. McCann and Curtis Houser. All report a delightful time. The next conference goes to Danville. The Rev. Mr. Hammond is returned here, as asked by his congregation. The sessions of the conference

were all very interesting, and Rev. Hammond delivered the sermon at the Thursday morning session. Mr. McCann was secretary of the Y. P. S. C. E., and gave the annual report at the meeting. Rev. Hammond was elected the home mission secretary of this conference.

SAYS HE WAS ROBBED BY FORTUNE TELLERS

D. J. Baker or Harry Corbett, the fair showman who was robbed by traveling friends at the Riggie boarding house, has recovered a part of his property at Uhrichsville. He found the outfit of the pair who he says robbed him at Uhrichsville and at once attached the property. Instead of "John Alexander" he says he was robbed by a pair of fortune tellers whom he met at the Newark fair, and who he only knows as Bert and Bessie. She told fortunes under the name of Madam Christina. He had befriended them and they all intended working the Coshocton fair together. The pair are now supposed to be in Steubenville and Corbett is still after them.

Forced to Leave Home.

Every year a large number of poor sufferers whose lungs are sore and racked with coughs are urged to go to another climate. But this is costly and not always sure. There's a better way. Let Dr. King's New Discovery cure you at home. "It cured me of lung trouble," writes W. R. Nelson, of Calamine, Ark., "when all else failed and I gained 47 pounds in weight. He surely the King of all cough and lung cures." Thousands owe their lives and health to it. Its positively guaranteed for Coughs, Colds, LaGrippe, Asthma, Croup—all Throat and Lung troubles. 50c and \$1.00. Trial bottle free at C. R. Andersons and C. W. Ferguson's, Cosco.

SAYS COLORED WOMAN BROKE IN AND STOLE DOG

Tom Potter, Jr., complained to Mayor Cassingham Tuesday morning that a colored woman who lives in the Swan Island neighborhood had hoisted a window at his house and taken a dog, which has been staying at his house for the last few days. The dog followed him home, he said, and he did not know who it belonged to but he said he was going to make the woman pay for the damage done to the window if there is any way to do it. The mayor told him to find out who owns the dog first before beginning any legal action.

NO SPECTACLE FAKERS ALLOWED ON FAIR GROUNDS

Application was made to Secretary W. H. Miller Monday morning for the privilege of selling eye glasses at the fair. The applicant was promptly turned down and told that no privileges of this kind are granted.

HORSE RESCUED FROM A WELL

A horse belonging to Wm. D. Karr, who lives between Keene and Bloomfield was rescued from a well into which it had fallen Monday by filling the well with straw until the horse could jump out. The plan was suggested by Mr. Karr's aunt, Mrs. Headington.

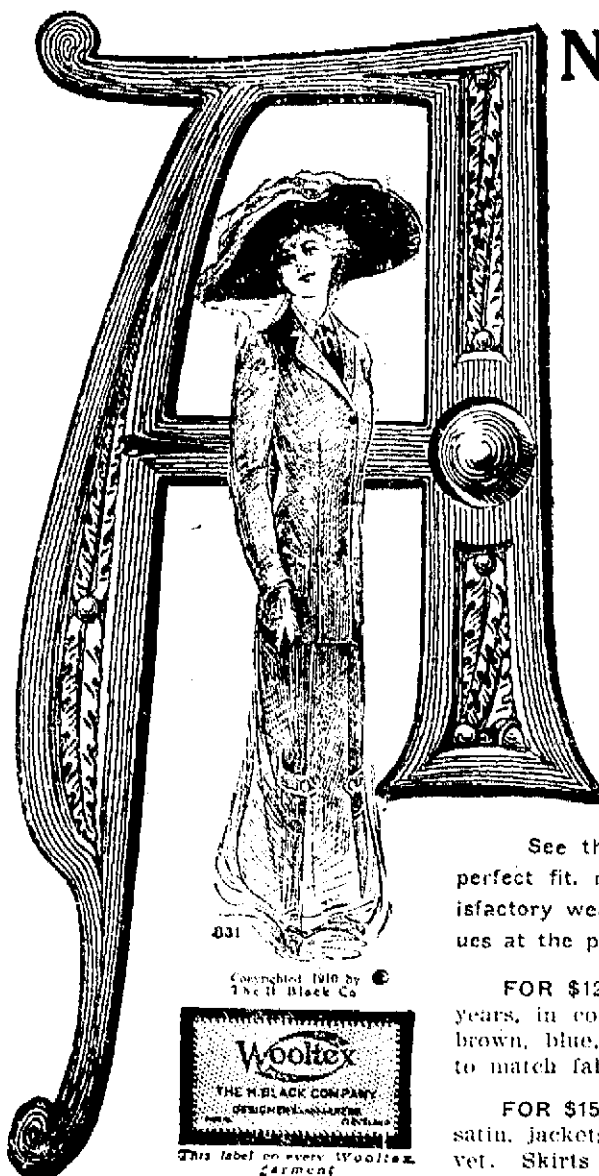

ANNIVERSARY OF THE HOLY NAME CHURCH

A big religious celebration was held at Steubenville Sunday, celebrating the 10th anniversary of the consecration of Holy Name church, which parish was organized by the present Bishop Hartley. The bishop

was present and gave an address. The late Father Synan was located there before he came to Sacred Heart.

Partition Ordered.

Partition was ordered Monday in the case of E. M. Cox et al vs. Ida M. Reamer. The plaintiffs are each given one-third of the estate and the defendants are each given one-fifth.

AND now it's time to settle the FALL SUIT PROBLEM

Our garment department offers a delightful solution for every woman's Fall Suit Problem. The most captivating new styles are here in a profusion of smart effects, that makes absolutely certain the satisfaction of every taste.

Critical women will be especially pleased with the stylish suits, which we are showing in a full range of fashionable models, fabrics and colorings. Refinement, good taste and exclusiveness are the distinguishing features, which strongly commend these garments to all who see them—get nothing commonplace. They are garments whose style is unobtrusive, yet notably different and artistic.

But style is only one superior feature of The Fountain's garments. They are famous also for their splendid tailoring and accurate fit and to still further increase their worth, they are made with the Pilo Canvas, an exclusive shape retaining fabric, which will not shrink, wrinkle or moisten and will hold the shape of the garment as long as it lasts.

See these FOUNTAIN SUITS consider their beautiful style and perfect fit, remember that they are garments to give two seasons of satisfactory wear. Then you must admit that they are unapproachable values at the prices ranging from \$12.50 to \$37.50.

FOR \$12.50 — Suits for the young miss, in serges, from 13 to 17 years, in colors of plain and fancy mixtures, linings of satin, colors of brown, blue, and green. Collars of velvet, trimmed in soutache braids to match fabrics, touched with gold braid.

FOR \$15.00 — Suits in new shades of blacks and greens; linings of satin, jackets 27 and 30 inch., which are correct. Collars trimmed in velvet. Skirts of plain and short pleats.

FOR \$17.50 — Suits in the new shades of rich brown, blue, oxford and wine, including fancy mixtures. Jackets in another correct length, 28 and 30 inch. Linings of satin.

FOR \$19.50 — Stylish Suits in black, oxford and fancy mannish cloths, short pleated skirts, jackets 27 and 30 inch.

FOR \$25.00 — Swagger Suits in new colors of the new light weight broadcloth of blue, oxford, and black, including Scotch Suitings. Linings of Belding's Satin, the new habit back skirts and inverted pleats.

FOR \$27.50, \$30.00, \$35.00 and \$37.50 — Suits in black, blue, brown, dark fancy Scotch Suitings in handsome combinations of colors.

How Sewer Pipe is Made at South Coshocton

New Herbert Process Explained

Interesting Account of Method at the Clow Plant Given in Bulletin Issued By Big Company at Its Chicago Office.

The September Bulletin, printed at Chicago by James B. Clow & Sons, gives a description of the manufacture of cast-iron pipe by the new Herbert process at the Coshocton plant, with illustration, showing the various stages. The description is in part as follows:

It has long been considered desirable by the pipe foundryman to have some simple continuous system of making pipe, to eliminate the heavy and expensive labor attached to the usual methods of hand work, to obviate the enormous first cost of modern turn-tables, which have proved to be expensive in up-keep, cumbersome to work and absorbing an enormous amount of power to overcome the inertia of the ponderous structure, and to avoid the long and vexatious delays due to the fact that any little accident or delay occurring at any one point on a rotary table stops the entire process. It has also been the aim of the pipe maker to devise a method whereby the uncertainty and waste due to existing methods of moulding pipe might be avoided, to design a plant and tackle which enables the moulds and work to be quite open for examination at any and every period of the operation, and to obviate any possibility of making defective pipe and to produce pipe which is true and concentric, straight, sound and clean, and which has that nice, clean surface which is a delight to the maker, the inspector,

without affecting the other flasks. Please carefully note that the function of the cumbersome turn-table, already referred to, is but to carry and move the flasks as required during the operation. In the Herberts' system each flask runs on its own wheels and requires nothing more than a simple push at each end of the track or train load of flasks to propel it whenever it may be required, and so nothing is moved more than is absolutely necessary to move, and that is the flasks.

There are four rows of flasks, each row on its own track, which track is composed of simple pillars and post-work. They are merely runways. Two of these tracks carry the flasks from left to right, and when the flasks reach the end of these tracks they are pushed four at a time, two from each row, into transfer bogies, which are placed at each end of the main runways, and transfer the flasks from the two runways, which run from left to right to the other two runways, which run from right to left, and thus the whole of the flasks are kept constantly traveling (by means of hydraulic pushers) around the rectangle formed by the runways and transfer bogies.

Perhaps it would be most convenient now to proceed to the "modus operandi," and to begin with an empty flask, and briefly to explain the more important operations in the making of a pipe in the regular sequence, making the mould, blacking, drying, coring, casting, stripping,

mould it has sleeked the mould into a perfect surface and finish, that is not possible to obtain by any other known method. It must be obvious to anyone that since, at the moment of the completion of the mould, the whole of the mould is absolutely full of the pattern, that therefore, the mould must be exactly true and like the pattern in every particular. The mould cannot be bent or be untrue in any way. The uniformity and perfection of the ramming is remarkable, as is evidenced by the accuracy and smoothness of the external surfaces of the pipe, advised by all who have "seen the goods." Each machine has two rams, and each ram will make a complete mould, as described, in two minutes and a half.

The newly made mould having been raised up on to the runway level is now pushed along another step, and arrives at a point where the mould is blacked. The next movement lands it over a drier which is a gas burner, which is placed underneath the open flask, and as there are about thirty-five of these burners in a line, and as each flask must pass over each and every burner, it is clear that there can be no doubt as to the perfect and uniform drying of the moulds. This gas is specially washed and otherwise prepared for the purpose, and there is no soot nor dirt attending it. It is clean to use and clean in its results. To obviate the evils usually resulting from forced and over rapid drying, these burners are "graduated," that is, the heat is gradually increasing—the first at a very low heat, and the last burner hot enough to give a dry mould without burning. The advantage of this will be obvious to any foundryman, and it is also obvious to the customer when "he has the pipe."

The mould, having now reached the end of the drying runway, is transferred to the return or casting track, and on commencing its return motion, small lifts, which are placed

The Pipe in Process of Completion.

and the cycle is complete. The cores also are especially made and dried by washed gas, thus keeping free of all the faults and dirt resulting from the ordinary methods of making.

It is clear that in a modern plant of this nature every part and process connected with the production is first-class pipe has been carefully brought out, and we feel quite certain, both from our own observation and the excellent opinions so freely expressed by those whom we have supplied with pipe made at our Coshocton plant, that we produce an article which will fill the most exacting specification to the utmost.

As an instance of what "modern refinements" we have introduced into our methods of pipe making, we may mention that every pipe made on the Herberts' system in our new shops is cast with a head of metal about seven inches long. This insures perfect solidity and soundness of the pipe, and provides for uniformity in contraction. This head of metal is then cut off in the lathe, thus leaving a fine bead and finish on the end of the pipe. The end of the spigot is consequently perfectly true and fair and fits into the socket of the pipe just as it should do. All this and more, combined with excellent methods of coating and testing the pipe, enables us to appeal with the utmost confidence to our customers, as we are now in a position to supply what we believe to be the best cast-iron pipe ever produced, and we anticipate a growing demand for Clow's pipe made by the Herberts' system.

We extend to all our customers a very hearty invitation to visit works at Coshocton, Ohio.

KENILWORTH AVENUE SEWER RESOLUTION IS VETOED BY MAYOR

Very little real business was transacted at the meeting of the city council Monday evening. The resolution to construct a sewer on Kenilworth avenue was found to have been vetoed by Mayor Cassingham, who held that the publication of this resolution would be an unnecessary expense in view of the fact that plans are now being formulated for a complete sewer system for that end of the city.

Judge Nicholas criticized the mayor's action in very caustic terms stating that why such a course had been pursued was beyond his comprehension.

The ordinance to distribute the money collected from fines, licenses and permits among the different city funds was laid on the table, all voting aye on the motion except Mr. Riley. Mr. Higgins, of the ordinance committee, reported that they could not see any good reason for the ordinance as the auditor's books gives each department credit for its work.

Engineer Fisher reported that plans are being made for the south-side sewer and that he would rush matters.

The matter of a watchman for the Wheeling & Lake Erie crossing at Cambridge street was held over until next week, when it is said some of the railroad officials will be here.

PIANO WON BY MRS. ZIMMERS TO BE AT THE FAIR

The handsome piano awarded to Mrs. Emma Zimmer, of Coshocton, O., by the Daily Age in the great \$2800 contest, will be on exhibition at the fair in The Age booth in the auditorium. Mrs. Zimmer has kindly consented to let the fine instrument be displayed during the fair. She is still in the race for the final prizes. She has issued the following thanks to her friends:

"I desire to take this method of personally thanking all my friends who so loyally rallied to my aid and helped me win the Special Piano for new subscriptions in The Age contest last week. It was hard and active work that won it, but without the kindly co-operation of my friends over the county I could not have won. I thank them all, most cordially. (Signed) Mrs. Emma Zimmer"

BEWARE OF OINTMENTS FOR CATARRH THAT CONTAIN MERCURY. Such ointments will surely destroy the mucous membrane of the nose and throat, and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescription from reputable physicians, as the danger they will do is too fatal to the good you can possibly derive from them. This "Cathartic Cure," manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying this Cathartic Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co., Toledo, Ohio. Sold by Druggists. Price 75c per bottle. Take Hall's Family Pills for constipation.

Oak Grove Grange Met. Oak Grove grange at its meeting Monday evening completed arrangements for the exhibits at the fair. Oak Grove and Fresno granges will compete for the prizes offered and Plainfield will also have an exhibit. Two candidates, Miss Minnie Thompson and Miss Ida Carman, were given the obligation by Oak Grove grange.

EVER WATCHFUL

A Little Care Will Save Many Coshocton Readers Future Trouble. Watch the kidney secretions. See that they have the amber hue of health. Contain no "brick-dust like" sediment. Doan's Kidney Pills will do this for you.

They watch the kidneys and cure them when they're sick. John Schaffer, 324 N. Fifth-st., Coshocton, Ohio, says: "I suffered intensely from pains across my kidneys and my back was so lame that I could hardly move. The kidney secretions passed too frequently and broke my rest. At length Doan's Kidney Pills were recommended to me and I procured a supply at Siegrist & Williams' Drug Store. By the time I had used two boxes I was greatly relieved and though I occasionally have a slight twinge in my back, my kidneys are normal."

Mr. Schaffer gave the above testimonial in August 1906 and when interviewed on May 8, 1909 he said: "Doan's Kidney Pills cured me of kidney complaint three years ago and my kidneys have bothered me but very little since. I gladly recommend this excellent remedy again."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

COSHOCTON CHURCH WINS AGAIN

The Sunday school at the Coshocton Church of Christ led in the attendance contest again on last Sunday. Word was received from Fortoria that their attendance was 249, while at the local church it was 274.

It's the World's Best. No one has ever made a salve, ointment or balm to compare with Bucklin's Arnica Salve. It's the one perfect healer of Cuts, Corns, Burns, Bruises, Sores, Scalds, Boils, Ulcers, Eczema, Salt Rheum, For Sore Eyes, Cold Sores, Chapped Hands, or Sprains. It's supreme. Infallible for Piles. Only 25c at C. E. Anderson's or C. W. Ferguson's, Roscoe.

and the user.

When it was decided to erect our new pipe mill at Coshocton, the first care was to find the best method extant to accomplish the desired results, and after having considered all known methods, and after careful inspection of many well-known plants at home and abroad by our superintendent, Mr. Aland, it was finally decided to adopt for the first time in America the Herberts' patent machines and system, a method which has proved very satisfactory in England, and which already achieves in our own new works better pipe than has hitherto been made.

It is impossible to give a full description of this ingenious method in an article of this nature, but we hope, in all future issues, to give more detailed particulars of the many important devices used in connection with suffice to convey an intelligent conception of its salient features.

Illustration number (1) shows the pipe flasks, each of which is mounted on four wheels, which are fixed on axles, thus forming a bogie on which each flask is carried and each flask is made in halves. These halves are each carried on a small wheel, also running on the upper side of each axle, so as to enable the flask to be opened when it is required to remove the pipe, and it should be carefully noted that each flask is entirely self-contained and is not attached to any part of the plant or structure, but is intended to run upon its own wheels, and never to be lifted by any crane or moved from the track on which it runs for any purpose whatever. It also illustrates the lower row of flasks about against each other, and form, as it were, a train load of flasks, each buffer to buffer, holding each other true and plumb and being quite independent of each other. In fact, should it be necessary, any flask can be lifted right off the track

and closing the flask, in one of the long rows illustrated, has just been pushed along and is now standing directly over the Herberts' patent Ramming Machine. Those sections of the rails on which the flask is now standing are lowered by means of small hydraulic rams, and the flasks, which are all truly machined at their lower ends, are dropped upon the machine plate. The machine itself is fixed underground in a vertical wrought-iron heavy casing and consists of a long hydraulic cylinder, containing a piston about ten feet long. This piston carries the pipe pattern which is fixed vertically in the piston. The pattern is the full length and diameter of the pipe to be moulded and carries a ramming cone and measuring tube on its upper end, the use of which will appear presently. The socket or bell pattern is situated at the lower end of the pipe pattern and is made to move up and down in a casing accurately machined concentric with the pipe pattern. The flask having now been dropped on the machine plate, the measuring tube is dropped down the flask upon the end of the cone already referred to. The sand is then filled into the flask; pressure is then admitted beneath the piston; up comes the pattern, the conical end of which rams the pipe body, and when nearly at the top of its stroke, the piston pushes up the socket pattern, and moulds the socket. A spigot pattern is then dropped over the top of the pipe pattern. This pattern also forms the gates and pouring well. The pressure is released under this piston and the gravity drops the spigot pattern into the upper part of the flask and moulds down the flask upon the end of the cone already referred to. The sand is then filled into the flask; pressure is then admitted beneath the piston; up comes the pattern, the conical end of which rams the pipe body, and when nearly at the top of its stroke, the piston pushes up the socket pattern, and moulds the socket. A spigot pattern is then dropped over the top of the pipe pattern. This pattern also forms the gates and pouring well. The pressure is released under this piston and the gravity drops the spigot pattern into the upper part of the flask and moulds down the flask upon the end of the cone already referred to. The sand is then filled into the flask; pressure is then admitted beneath the piston; up comes the pattern, the conical end of which rams the pipe body, and when nearly at the top of its stroke, the piston pushes up the socket pattern, and moulds the socket. A spigot pattern is then dropped over the top of the pipe pattern. This pattern also forms the gates and pouring well. The pressure is released under this piston and the gravity drops the spigot pattern into the upper part of the flask and moulds down the flask upon the end of the cone already referred to. The sand is then filled into the flask; pressure is then admitted beneath the piston; up comes the pattern, the conical end of which rams the pipe body, and when nearly at the top of its stroke, the piston pushes up the socket pattern, and moulds the socket. A spigot pattern is then dropped over the top of the pipe pattern. This pattern also forms the gates and pouring well. The pressure is released under this piston and the gravity drops the spigot pattern into the upper part of the flask and moulds down the flask upon the end of the cone already referred to. The sand is then filled into the flask; pressure is then admitted beneath the piston; up comes the pattern, the conical end of which rams the pipe body, and when nearly at the top of its stroke, the piston pushes up the socket pattern, and moulds the socket. A spigot pattern is then dropped over the top of the pipe pattern. This pattern also forms the gates and pouring well. The pressure is released under this piston and the gravity drops the spigot pattern into the upper part of the flask and moulds down the flask upon the end of the cone already referred to. The sand is then filled into the flask; pressure is then admitted beneath the piston; up comes the pattern, the conical end of which rams the pipe body, and when nearly at the top of its stroke, the piston pushes up the socket pattern, and moulds the socket. A spigot pattern is then dropped over the top of the pipe pattern. This pattern also forms the gates and pouring well. The pressure is released under this piston and the gravity drops the spigot pattern into the upper part of the flask and moulds down the flask upon the end of the cone already referred to. The sand is then filled into the flask; pressure is then admitted beneath the piston; up comes the pattern, the conical end of which rams the pipe body, and when nearly at the top of its stroke, the piston pushes up the socket pattern, and moulds the socket. A spigot pattern is then dropped over the top of the pipe pattern. This pattern also forms the gates and pouring well. The pressure is released under this piston and the gravity drops the spigot pattern into the upper part of the flask and moulds down the flask upon the end of the cone already referred to. The sand is then filled into the flask; pressure is then admitted beneath the piston; up comes the pattern, the conical end of which rams the pipe body, and when nearly at the top of its stroke, the piston pushes up the socket pattern, and moulds the socket. A spigot pattern is then dropped over the top of the pipe pattern. This pattern also forms the gates and pouring well. The pressure is released under this piston and the gravity drops the spigot pattern into the upper part of the flask and moulds down the flask upon the end of the cone already referred to. The sand is then filled into the flask; pressure is then admitted beneath the piston; up comes the pattern, the conical end of which rams the pipe body, and when nearly at the top of its stroke, the piston pushes up the socket pattern, and moulds the socket. A spigot pattern is then dropped over the top of the pipe pattern. This pattern also forms the gates and pouring well. The pressure is released under this piston and the gravity drops the spigot pattern into the upper part of the flask and moulds down the flask upon the end of the cone already referred to. The sand is then filled into the flask; pressure is then admitted beneath the piston; up comes the pattern, the conical end of which rams the pipe body, and when nearly at the top of its stroke, the piston pushes up the socket pattern, and moulds the socket. A spigot pattern is then dropped over the top of the pipe pattern. This pattern also forms the gates and pouring well. The pressure is released under this piston and the gravity drops the spigot pattern into the upper part of the flask and moulds down the flask upon the end of the cone already referred to. The sand is then filled into the flask; pressure is then admitted beneath the piston; up comes the pattern, the conical end of which rams the pipe body, and when nearly at the top of its stroke, the piston pushes up the socket pattern, and moulds the socket. A spigot pattern is then dropped over the top of the pipe pattern. This pattern also forms the gates and pouring well. The pressure is released under this piston and the gravity drops the spigot pattern into the upper part of the flask and moulds down the flask upon the end of the cone already referred to. The sand is then filled into the flask; pressure is then admitted beneath the piston; up comes the pattern, the conical end of which rams the pipe body, and when nearly at the top of its stroke, the piston pushes up the socket pattern, and moulds the socket. A spigot pattern is then dropped over the top of the pipe pattern. This pattern also forms the gates and pouring well. The pressure is released under this piston and the gravity drops the spigot pattern into the upper part of the flask and moulds down the flask upon the end of the cone already referred to. The sand is then filled into the flask; pressure is then admitted beneath the piston; up comes the pattern, the conical end of which rams the pipe body, and when nearly at the top of its stroke, the piston pushes up the socket pattern, and moulds the socket. A spigot pattern is then dropped over the top of the pipe pattern. This pattern also forms the gates and pouring well. The pressure is released under this piston and the gravity drops the spigot pattern into the upper part of the flask and moulds down the flask upon the end of the cone already referred to. The sand is then filled into the flask; pressure is then admitted beneath the piston; up comes the pattern, the conical end of which rams the pipe body, and when nearly at the top of its stroke, the piston pushes up the socket pattern, and moulds the socket. A spigot pattern is then dropped over the top of the pipe pattern. This pattern also forms the gates and pouring well. The pressure is released under this piston and the gravity drops the spigot pattern into the upper part of the flask and moulds down the flask upon the end of the cone already referred to. The sand is then filled into the flask; pressure is then admitted beneath the piston; up comes the pattern, the conical end of which rams the pipe body, and when nearly at the top of its stroke, the piston pushes up the socket pattern, and moulds the socket. A spigot pattern is then dropped over the top of the pipe pattern. This pattern also forms the gates and pouring well. The pressure is released under this piston and the gravity drops the spigot pattern into the upper part of the flask and moulds down the flask upon the end of the cone already referred to. The sand is then filled into the flask; pressure is then admitted beneath the piston; up comes the pattern, the conical end of which rams the pipe body, and when nearly at the top of its stroke, the piston pushes up the socket pattern, and moulds the socket. A spigot pattern is then dropped over the top of the pipe pattern. This pattern also forms the gates and pouring well. The pressure is released under this piston and the gravity drops the spigot pattern into the upper part of the flask and moulds down the flask upon the end of the cone already referred to. The sand is then filled into the flask; pressure is then admitted beneath the piston; up comes the pattern, the conical end of which rams the pipe body, and when nearly at the top of its stroke, the piston pushes up the socket pattern, and moulds the socket. A spigot pattern is then dropped over the top of the pipe pattern. This pattern also forms the gates and pouring well. The pressure is released under this piston and the gravity drops the spigot pattern into the upper part of the flask and moulds down the flask upon the end of the cone already referred to. The sand is then filled into the flask; pressure is then admitted beneath the piston; up comes the pattern, the conical end of which rams the pipe body, and when nearly at the top of its stroke, the piston pushes up the socket pattern, and moulds the socket. A spigot pattern is then dropped over the top of the pipe pattern. This pattern also forms the gates and pouring well. Alex McDonald for Sheriff.

Alex McDonald has made one of the best and squarrest shoriffs Coshoc-ton county has ever had and well merits the second term the Re-publican party is asking for him Fearless, alert, active and consci-entious, he makes an ideal official, with the welfare of the people al-ways in mind. Quiet and unassum-ing, he is content to do his duty as occasion demands—and he is always on the spot. He will mor-itize YOUR vote this fall.

The Tenderfoot Farmer. It was one of these experimental farmers, who put green spectacles on his cow and fed her shavings. His theory was that it didn't matter what the cow ate so long as she was fed. The questions of digestion and nourishment had not entered into his calculations. It's only a "tenderfoot" farmer that would try such an experiment with a cow. But many a farmer feeds him-self regardless of digestion and nutrition. He might almost as well eat shavings for all the good he gets out of his food. The result is that the stomach grows "weak" the action of the organs of digestion and nutrition are impaired and the man suffers the miseries of dyspepsia and the agonies of nervousness. To strengthen the stomach, restore the activity of the organs of digestion and nutrition and brace up the nerves, use Dr. Pierce's Golden Medical Discovery. It is an un-failing remedy, and has the confidence of physicians as well as the praise of thousands healed by its use. In the strictest sense "Golden Medical Discovery" is a free from alcohol medicine. It contains neither narcotics, nor poisons, and is as free from alcohol as from opium, cocaine and other dangerous drugs. All ingredients printed on its outside wrapper. Don't let a dealer delude you for his own profit. There is no medicine for stomach, liver and blood "just as good" as "Golden Medical Discovery."

Dr. R. M. Temple, Jr. Candidate for Clerk of Courts On the Republican Ticket Your influence and vote for the election of Dr. Temple to the office of Clerk of Courts will help him, please his friends and satisfy you. Will you help? We believe you will.

The Last Special Vote Offers of The Great \$2,800 Contest. The last special vote offer in The Age's Great \$2,800 Contest is hereby announced. Be sure to read it carefully. It is Positively Your Last Chance to Secure Extra Votes. We will allow an increase of double votes between the dates of October 10 and October 15, inclusive, on all NEW subscriptions and we will allow an increase of 50 per cent. of votes on all NEW sub-scriptions turned in the last six days of the contest, Oct. 17 to Oct. 22, inclusive. The schedule of votes allowed on NEW subscriptions is as follows: THE DAILY AGE Three months 5,000 votes Six months 12,000 votes One year 30,000 votes Two years 60,000 votes WEEKLY AGE One year 5,000 votes Two years 12,000 votes The regular number of votes will be allowed on OLD Subscriptions as follows: (By carrier or by mail) DAILY AGE Three months 2,500 votes Six months 6,000 votes One Year 15,000 votes Two years 40,000 votes THE WEEKLY AGE One year 2,500 votes Two years 6,000 votes These are positively the last special vote offers to be made in this contest. Those who fail to take advantage of them are jeopardizing their chance of winning one of the \$350 Compton-Price Pianos, one of the Diamond Rings, one of the Scholarships of one of the Gold Watches. It will be advisable to turn in every available subscription during the coming week and take advantage of the double votes votes allowed on NEW subscriptions. The double vote offer closes Saturday, Oct. 22. The 50 per cent. increase vote offer closes the last day of contest, Saturday, Oct. 22. As before you do not have to publish votes issued on NEW subscriptions but may hold them back until the last day of the contest, Oct. 22. Get your orders in promptly. A few thousand votes may win the Compton-Price Pianos or one of the other prizes. For particulars be sure to read the write-up in The Daily Age. TELL YOUR FRIENDS IT'S NOW OR NEVER. MAKE IT NOW!

Fall Styles in Men's Attire

Fall styles for men as set by New York, are as follows: Hats. The indications in hat demands for the fall season tend to show a great increase in popularity for the soft effects in preference to the stiff shapes. The hat shapes have changed very little and the moderately low crown and wide brim will be the favorite shape. Grays, browns, tans and blacks are the better shades, while a few blues of various shades, principally dark, are mixed in to brighten the season's color scheme in head-wear. The soft color beaver effects, introduced last fall, will again be popular during the winter months, and these will be shown in many beautiful mixed effects as well as in solid colors. The alpine shapes promise to be more popular than the telescopes. The plush hats are not much thought of by the best dress-ers.

Shirts. The shirt fashions for fall in a great measure show the same fab-ric and weaves that have for several seasons been established as the most fashionable and practical. These are madras, chevrons, oxfords and per-cals. Small conventional designs and stripes of various widths are in fa-vor for the season. Self stripes are popular and wide stripes de-corated with swivel designs, flowers, vines, etc., are seen in the fashion-able shops. Blue, gray, tan and black and white effects are shown with the most prominence, but combinations of the more delicate shades are ex-tremely well thought of and largely displayed in the higher grade lines.

Neckwear and Hosiery. It is still the edict that the neck-wear and hosiery match in shade, in fact it is even accentuated this season in certain quarters by fashion-able hosiery and neckwear match in shade but also in fabric. This is go-ing to be done very much this season. These effects show the ties of either knit or tubular texture and the hose of silk of the same material. Silk and wool and silk platted materials are also employed. Grays, tans, blues, black and white and oxford ef-fects are the leaders. Red is also at-tracting much attention in sympathy with the Chantecleer craze, which has developed into more than a fleet-ing fad and will be intensified with the introduction of Rostand's play on this side during the coming theat-ric season. The original Chantecleer color is vermilion though it is now shown in variations as the var-ious characters of the play suggest. These are more or less modified so that the man who considers him-self a conservative dresser may wear a Chantecleer tie and feel perfectly at ease. The owl, frog, rooster, pea-cock, etc., come in beautiful shades of dark red, brown, green and blue. These mentioned above are the sea-son's departures, which by no means implies that they will predominate the fashions. The scope of personal taste will not permit such hard and fast dictates, therefore, you will find great latitude given to indulge your personal fancies with other good shades and effects.

Waistcoats. The latest feature in waistcoats is in the material, rather than in the cut. Silk knitted waistcoats are the very latest innovation. These are shown in many colors with flat braid

Free Sample Aids Old Men

The sudden change from years of activity of both body and mind to the quiet of later years causes the human system to undergo many changes, chief of which is in the di-gestive organs. It becomes harder and harder to get the bowels to move and adds to the regu-lar and in consequence many elderly men suffer not only from the basic trouble, con-stipation, but from indigestion, headache, belching, sour stomach, drowsiness after eating and similar annoyances. It is first of all necessary to keep the bowels open and then to tone the digestive muscles so as to get them to again do their work naturally. A violent cathartic or purga-tive is not only unnecessary but harm-ful, and something mild will do the work just as well. After you have got through experi-menting with salts and pills and waters of various kinds, and have become convinced that they do only temporary good at best, then try Dr. Caldwell's Syrup of Pepsin, a mild, gentle, pleasant-tasting laxative tonic that is especially adapted to the requirements of old people, women and children, and yet is effective enough for anybody. Your druggist, who has handled it successfully for a quarter of a cen-tury, will sell you a bottle for fifty cents or one dollar, but if you want to make a test of it before spending any money send your name and address to Dr. Caldwell and he will gladly send you a sample bottle free of charge. This remedy is rapidly displacing all other forms of cathartics, and is a powerful aid to the stomach, liver and bowels, and families like Mr. O. P. Wisner's of Hyca-tus, Ind., are now never without it in the home. It has been tested and know its grand value to every member of the family. Dr. Caldwell personally will be pleased to give you any medical advice you may desire for yourself or family pertaining to the stomach, liver or bowels absolutely free of charge. Explain your case in a letter and he will reply to you in detail. For the free sample simply send your name and address on a postal card or otherwise. For further request the doc-tor's address is Dr. W. B. Caldwell, R. 210 Cal-dwell building, Monticello, Ill. For sale by C. E. Anderson, Coshoc-ton and C. M. Ferguson, Roscoe, Ohio.

of self-tone on the edges and around the pockets. In the more established waistcoat effects there are no espe-cially prescribed materials and shades, the main idea being that the waistcoat shall either match or con-trast harmoniously with the coat and trousers.

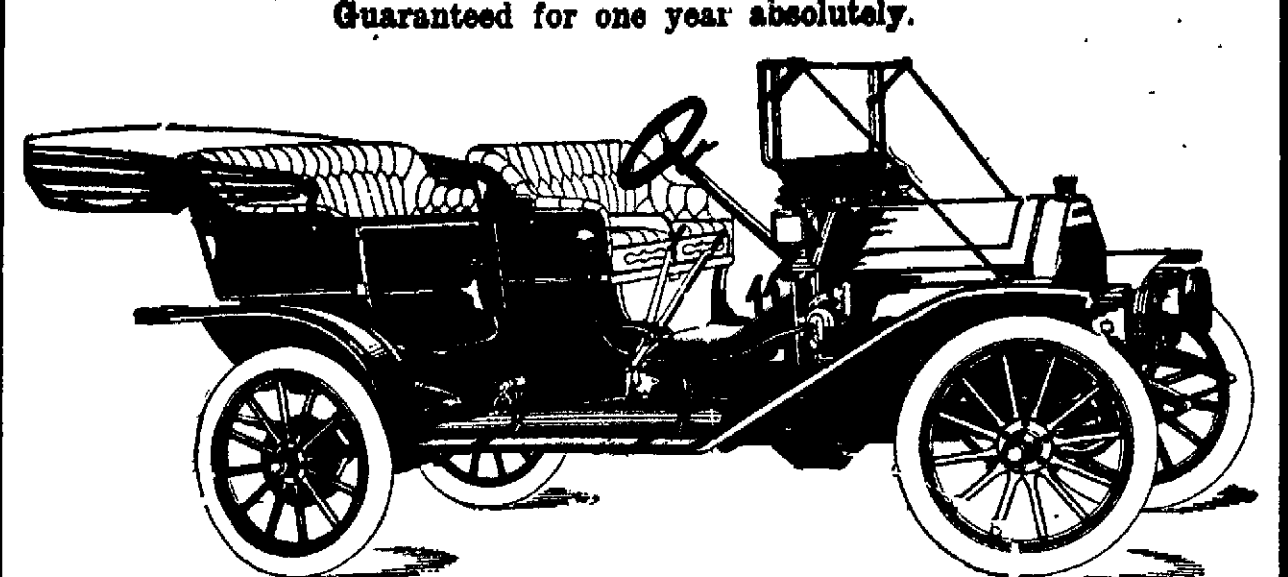

Canes and Umbrellas. There are many novelties intro-duced in walking sticks and umbrellas. The canes, especially, show some un-ique conceptions. One novelty is the lacquer stick with crystal ball or head set with turquoise to match the head of the cane. Still another shows a match box imbedded in the head of the cane and some even have a receptacle for cigarettes. About the same woods and handle effects are employed as heretofore with a vari-ety of ideas in carvings and trim-mings.

Jewelry. One of the recent features in jew-elry is the lapel watch fob. These are shown in chain, leather and rib-bon effects with various unique de-signs for the lapel button. Many of the buttons attached to the fob are initial, monogrammed or set with in-expensive stones. These fobs attach with a button in the lapel button hole and permit the watch to rest conven-iently in the upper outside pocket of the coat. The popular style of wear-ing flannel and silk shirts the year round has introduced new effects in soft collar pins and links. There are new links especially adapted to the fashionable French cuffs. These links and pins come in matched sets of pearl and gold or set with semi pre-cious stones? Scarf holders are also enjoying a marked return to popular-ity.

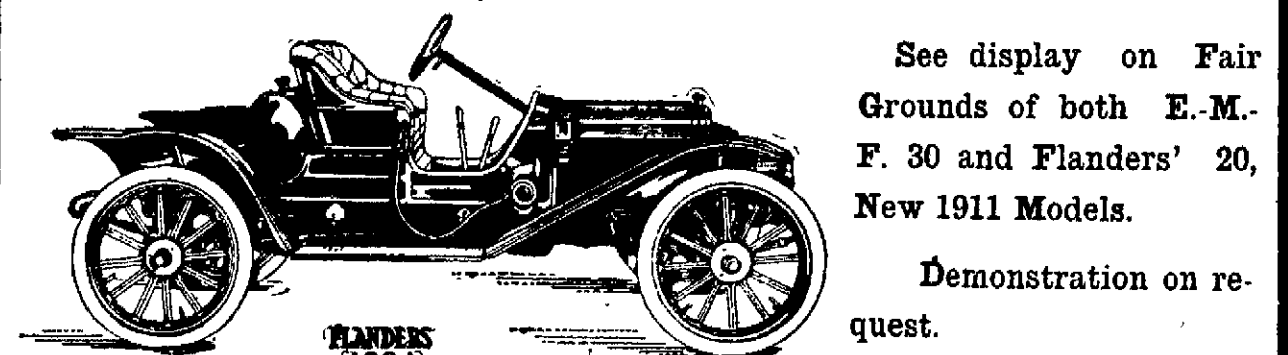

Gloves. This article offers little scope for variation of style and accordingly there is not much defined this sea-son. The gloves are best selected when in color harmony with the tone of the overcoat or reefer. There is a preference for the button effects over the clasped. Brown shades and grays are the most fashionable. The brown shades are shown mostly in the mocha, glace and cape materials and the grays in the suede and che-erette effects—The Buckeye Maga-zine.

Why Rudy W. Archer, Republi-can Candidate For Treasurer of Slette, Stands So Well at Home. Half a dozen newspapers in Ohio have printed a feature article about Rudy W. Archer of Bellaire, Repub-lican candidate for treasurer of state. These interesting excerpts are re-printed from the story: "I stopped in Bellaire on my way to St. Clairsville to ask questions about Rudy W. Archer, the glass-blower candidate for state treasurer on the Republican ticket, for that is his home town. I wanted to learn from his neighbors the secret of the popularity of this wage-earner who ran 1,700 votes ahead of President Taft in his home county, who led the Republican ticket by 800 votes, get-ting 101 more than the unopposed candidate for prosecuting attorney, when he ran for re-election in 1908, and who got a 2,000 plurality when, still working at his trade, he first ran for county treasurer in 1905, and that out of a total vote of less than 10,000. "The figures seemed to furnish food for thought. What brilliant act had this man done that his neighbors had chosen him as the custodian of the

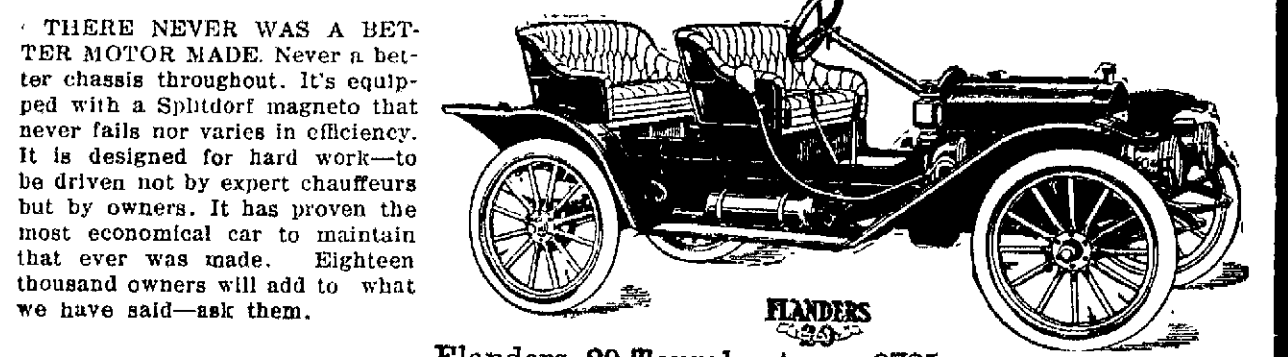

Price of 1911 Model E-M-F "30" \$1,000

Guaranteed for one year absolutely. E-M-F "30" Price \$1,000 LET US IMPRESS THIS FACT UPON YOU: There is no change in the 1911 model. We could find no point to improve—there wasn't a weak spot in the 1910 model. E-M-F "30" is today recognized as the standard American car. It has set the styles and the pace for nearly three years. We believe it will do so for at least three years more.

cooker cheap; inquire at The Wehrle
Machine Works.

Embarrassing.
The Squire's Pretty Daughter (exam-
ining the village school)—Now, chil-
dren, can you tell me what a miracle
is?

The children looked at one another,
but remained silent.

"Can no one answer this question?"
the new curate asked, who was stand-
ing behind the squire's daughter.

A little girl was suddenly struck
with a brilliant idea. She held up her
hand excitedly.

"Well, Nellie?" the squire's daughter
asked, smiling approvingly.

"Please, miss," the small child re-
plied breathlessly, "mother says 'twill
be a miracle if you don't marry the
new curate.'"—London Globe.

Eat anything you want; don't
starve yourself, fearing it won't
agree, for Hollister's Rocky Mountain
Tea cleans the bowels and stomach,
and makes digestion easy. Satisfy
yourself by trying.

The undersigned residents of Bed-
ford and Jackson townships do not al-
low any hunting, shooting, trapping,
fishing or trespassing on our prem-
ises: Jos. Orr, Dan Campbell, W. E.
Orr, Simon Ascherat, Sowers and
Porter, V. E. O'Brien, Frank Price,
Dean Bros., Guy Lowery, Lowery
brothers.

Two Bullsayers.
Senator La Follette was talking
about two corporations that had been
attacking one another in the press.

"They both sored," he said. "They
made me think of two prisoners in At-
lanta, one of whom had been convicted
of stealing a watch, the other of steal-
ing a cow. These two prisoners hated
each other, and as they passed one
morning in the exercise yard the cow
stealer said, with a sneer:

"What time is it?"
"Milking time," the watch stealer
answered."

shocton County, Ohio

Speaker and Speakers.
There is a tale to the effect that
while Hon. Thomas Brackett Reed
wielded the gavel in congress a gen-
tleman took his little boy to the gal-
lery of the house of representatives.
Looking down upon the more nume-
rous bunch of the federal legislature,
the child asked, "Father, who is that
large man sitting in the pulpit with a
mallet in his hand?"

"He, my son," replied the fond pa-
rent, "is the house of representatives."

"And who are those other men sit-
ting in semicircles around him?" in-
quired the tiny chap.

"They are the speakers of the house
of representatives," answered pater-
familias.

Age Want Ads Deliver The Goods

The highest type of happiness is
reached by having children "at
home; but the coming of the little
ones is often attended with ap-
prehension and dread. Mother's Friend
if used by the expectant mother in
preparation of the ordeal, carries
her through the crisis with safety.

PARTY GRAFTERS.

Chief Executive Talks Much About "Graft" but Puts His S. K. on Crooner, Finley, Zuber, et al., Who Mulcted State of Real Money.

all questions and had taken illegally but \$68.45 in two years, which is a fine record as compared with other Democrats who have been investigated. He made good.

C. M. WIRNELL, commissioner of labor, Harmon's appointee, having been in office but a month or so, had grafted only \$44.65.

T. P. KEARNS, inspector of work-shops and factories, appointed by Harmon, had been in the position about a month but had a fair start with \$42.25 to put back. Harmon forgave both and sent their names to the senate that their appointments be confirmed.

While state inspector of oils, under appointment of Governor Patterson, Mr. Wm. L. Finley told his deputies to charge fees for all oil coming into their territory. Mr. Kilgore, the deputy at Lima, inspected the kerosene made by the Solar Refining company of that city by taking a sample from the 40,000-barrel tank—that's what it holds, forty thousand barrels. He was directed by Finley to notify each deputy the number of cars of this inspected oil shipped into his territory. The deputies into whose districts such oil was sent were told by Finley to send in claims for fees on the amounts of oil reported to them by Kilgore. They did. Finley uttered false vouchers for the amounts and they got the money from the state treasury.

The Finley conspiracy cost Ohio \$7,968.35. Here is a detailed explanation:

M. C. SHAFER of Findlay was paid \$728.05 for inspecting kerosene he never saw.

A. C. BACHTEL, deputy inspector of oils at Akron, was directed to charge fees for inspecting oils he says he did not inspect, \$149.28.

THOMAS M. MCBEE, Mansfield, by direction of the state inspector of oils, Wm. L. Finley, charged and collected \$286.99 on vouchers Finley issued, for services never rendered.

FRANK L. REED, Mr. Finley's deputy, was directed by him to charge fees for 16,475 barrels of kerosene as having been inspected by him in tank cars he did not even see. Mr. Finley paid him from state's money \$500.16.

W. J. DEVANNY, an aristocratic name in Democratic circles, was inspector of oils under Mr. Finley at Cincinnati. He was a high priced lieutenant and Mr. Finley cashed for him false vouchers for \$1,476.18, knowing them to be false.

WM. COWELL, Toledo, by Finley's direction, charged for inspecting 29,896 barrels of oil which had been inspected previously by one of Finley's men at the refinery and received \$717.95.

J. B. KLUNK, Toledo, was in the machine but two months. He, as did others by Finley's direction, charged for inspecting cars of oil which bore evidence that they had been inspected previously and the law fully complied with.

H. C. GRAY, deputy inspector at Hamilton, fared better than Mr. Devanny. Wm. L. Finley paid him on false vouchers representing fees for inspecting oil in the railway yards at Hamilton, on which Mr. Finley had previously collected inspection fees at the Solar Refining company at Lima.

The terms of service of E. W. PEOPLES and S. N. BEEBE as deputy inspectors at Columbus were so short that Mr. Finley gave them state's money on accounts falsified by his direction for \$194.48 for Peoples and \$230.57 for Beebe.

All deputy oil inspectors save one had a territory. Seven months before his term ended the state inspector of oils, Mr. Finley, found that the state's share of the fees for inspecting kerosene was not being entirely exten up by the ten deputies who were in conspiracy with him to hold up the state by false vouchers. So he made Schmieder, Joseph Schmieder of Minster, "inspector at large," or something like that. Anyway Schmieder went at the end of each month to Lima. Inspector Kilgore had ready for him false statements of oil inspected by him. Schmieder would give Kilgore \$5, sign the statement, send it to Finley, who would make a voucher against the state and send him \$10. This lasted seven months, till Finley was superseded. Schmieder has represented Auglaize county in the legislature and had considerable political power.

Here is another interesting sidelight on Mr. Harmon's graft charges: Mr. Wm. L. Finley, while inspector of oils, paid his stenographer \$30 a month. When she saw in his annual report that he had collected from the state \$60 a month as her salary she worried him about it. Then she told Governor Harris, who sent for Finley. Then Finley fired her, but she declined to quit until paid. She got \$187.00.

American workmen are the best paid, the best fed, the best clothed of any working men in the world. And in this connection bear in mind that protection is the national policy of America.

Strawberry, Peach, Chocolate and Vanilla Ice Cream at Parilla. 25c

BAKING BREAD

Long and Short Processes

BY RUTH A. WARDALL.

Professor of Domestic Science, Ohio State University.

The successful baking of bread depends upon conditions that are not always taken into consideration. Short or long processes depend upon the time necessary for certain chemical changes to take place that are necessary to get the desired flavor, lightness, texture, color, and moisture.

BREAD—Long Process.

Bread started the night before: 1/2 cup scalded milk, 1/2 cup boiled water, 1 tablespoon lard or butter, 1/2 teaspoon salt, 3 cups flour, 1 tablespoon sugar, 2 tablespoons warm water, 1-6 to 1-8 cake dry yeast, or 1-8 to 1-6 cake compressed yeast. Sponge—Sift the yeast in the two tablespoons of warm water until softened. Place sugar in a bowl; add the liquid, and when this is lukewarm add the yeast and about one-half the flour. Beat smooth and leave over night.

Dough—Add the remainder of the flour, the salt and fat to the light sponge, stirring until it is well mixed. Turn the dough onto the board and knead quickly until it is smooth and somewhat elastic to the touch and does not stick to the hands or board. Put in a bowl and set to rise in a warm place.

Leaves—When the dough has doubled in bulk, knead it down, make into a loaf and set to rise again in a greased pan in which it is to be baked. When the dough has again doubled, bake forty to fifty minutes. When baked, remove the loaf from the pan at once and cool it in a position which allows for a free circulation of air.

BREAD—(Short Process) Short Time Allowed.

1/2 cup scalded milk, 1/2 cup boiled water, 1 tablespoon lard or butter, 1/2 teaspoon salt, 3 cups flour, 1 tablespoon sugar, 1/2 to 2 compressed yeast cakes in 2 tablespoons warm water.

Put lard or butter, sugar and salt in bread bowl; pour on it the hot liquid (milk and water). When this is lukewarm, add the softened yeast cake; then add enough flour to make a batter; beat the latter thoroughly.

Add the remaining flour; mix and turn on the floured board. Knead until the dough will stick neither to hands nor board and bubbles may be seen under the surface. Grease the bowl and return the dough to it. Set in a warm place until the dough has doubled its bulk; then shape into loaves. Let this double its bulk again and bake.

More or less than three cups of flour may be used, depending on the kind of flour and the handling. The amount of yeast used depends upon the strength of the yeast and length of time allowed for the bread to rise. If the bread is to be made during a two-hour school period, as much as two cakes to the loaf may be used. In the ordinary household process such an amount would be unnecessary and extravagant, except under unusual circumstances. The compressed yeast may be used in long process bread, but a much smaller amount should be added, because of the length of time the sponge has to stand.

Fat may or may not be added to bread, and the liquid may be all water, all milk, or a mixture. Potatoes are sometimes used for long process bread. They seem to furnish a favorable medium for the growth of the yeast. Sugar is not an absolute necessity in bread, but it is a good food for the yeast and probably hastens its activity.

If the dough has a crust formed over it while rising, there will be hard places through the bread. This crust should be avoided by lightly greasing the surface of the dough.

The object of kneading bread is to thoroughly mix it and to distribute the gas evenly, so making a finer texture. Repeated rising of the dough and kneading down before making into a loaf makes a somewhat finer texture and a whiter loaf, but at the expense of the finer flavor of the bread. Very good bread may be made with comparatively little kneading.

Bread is baked to kill the yeast plant, to thoroughly cook the starch and to make a brown and palatable crust. It is desirable to use a separate pan for each loaf; more than two loaves should never be baked in one pan. The pans should be small enough to insure the thorough baking of the loaf; 9x4 1/2 is a very good size for a single pan.

Lard, butter, or oil of any kind that is mixed with a dough helps to break up the stickiness of the gluten. Gas generated by baking powder or yeast can escape through it more easily. Too much shortening and quite a hot oven causes the gas to escape so rapidly that what is being baked falls.

The quality of gluten differs in the varieties of wheat. The highest yielding wheat in Ohio contains the poorest quality of gluten.

City subscribers must pay when they pay their bills.

NAILS VS. EGGS—A TARIFF POINT.

"Nails have doubled in price during the past few years," said the Democratic orator at the Farmers' picnic.

"Your dollar will buy only one-half as many nails as it did a short time ago," he continued.

"True," interrupted the Wise Farmer, "but one-third as many eggs bring us a dollar now; so we buy more nails for the same number of eggs."

GOV. HARMON HAS NO ISSUES.

The governor says his speeches in the campaign will be limited. They must be, of necessity. As a matter of fact, he has no live issues to discuss.

The romantic play seems on the verge of a revival. Several are announced for this season and W. A. Brady has brought from Europe a batch of them from which James K. Hackett is to take his choice.

SEEVERS' LAXATIVE TONIC TABLETS.

The Correct Laxative for Women. Mere physical beauty, enticing as it is, will not permanently avail in the absence of a clean, fresh, healthy skin and complexion. A woman may have perfect features, a youthful form and a graceful figure, but without the health and bloom of clear skin, perfect beauty is impossible.

When the skin is muddy or cloudy or marred by moth spots and pimples nine times in ten it is due to nature's inability to perform the function essential to perfect health.

Many a Coshocton lady could truthfully tell of the remarkable properties of SEEVERS' LAXATIVE TONIC TABLETS as a skin beautifier, and the reason is easy to find. They are purely vegetable extracts known to have a selective action for the skin.

They improve the complexion, clear up the skin, enrich the blood, stimulate the liver, tone up the intestines and cure chronic constipation by encouraging the bowels and assisting nature to do its own perfect work. C. B. Anderson's drug store recommends them with every confidence and a 25 cent package of SEEVERS' LAXATIVE TONIC TABLETS must do as is claimed of them or you can have your money back.

Twenty Thousand Owners Say to You—

Buy an

Overland

for 1911

Licensed Under Selden Patent

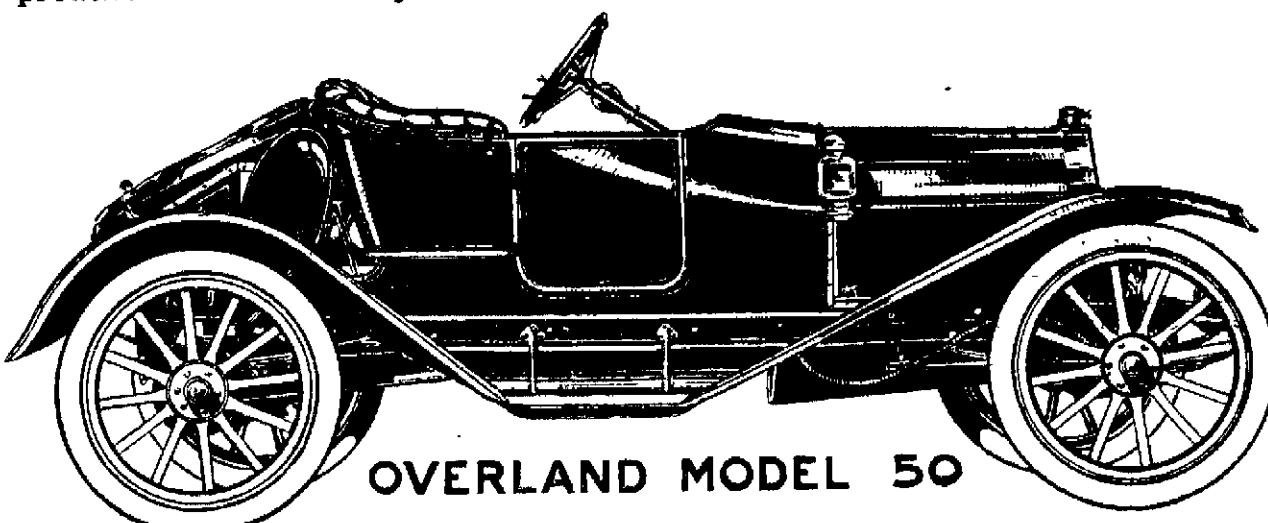

8 Per Cent. Less Cost and Fore Doors Free

The Overland—the leader of motordom—announces for 1911 a further saving of 8 per cent in cost, and fore doors free. 22 four-cylinder models, from 20 to 35 horsepower, from \$775 to \$1,675. All prices include magneto and full lamp equipment.

They start this new season with almost 20,000 Overlands in use—with a record of 12,326 cars delivered in the first seven months of this year—with deposits already in hand for more than 18,000 of the new models just coming out.

They start with five factories—with the finest machinery ever employed in making motor cars—a factory capacity of 140 cars daily.

And they start with a record of amazing success such as none ever approached in this industry.

OVERLAND MODEL 50

Model 50. 30 h. p.—110-inch wheel base. Made also as 5-passenger car with fore doors or open front. Price \$1,250.

This striking new model will be on display at our show rooms this week. Its the snappiest, smartest car ever shown in the city, with more refinement and more genuine efficiency than other cars of twice the price. Telephone for demonstration.

Temporary Heat Quickly

Did you ever stop to think of the many ways in which a perfect oil heater is of value? If you want to sleep with your window open in winter, you can get sufficient heat from an oil heater while you undress at night, and then turn it off. Apply a match in the morning, when you get out of bed, and you have heat while you dress.

Those who have to eat an early breakfast before the stove is radiating heat can get immediate warmth from an oil heater, and then turn it off.

The girl who practices on the piano in a cold room in the morning can have warmth from an oil heater while she plays, and then turn it off.

The member of the family who has to walk the floor on a cold winter's night with a restless baby can get temporary heat with an oil heater, and then turn it off. The

PERFECTION
SMOKELESS
OIL HEATER
Absolutely smokeless and odorless

is invaluable in its capacity of quickly giving heat. Apply a match and it is immediately at work. It will burn for nine hours without refilling. It is safe, smokeless and odorless. It has a damper top and a cool handle. An indicator always shows the amount of oil in the font.

It has an automatic-locking flame spreader which prevents the wick from being turned high enough to smoke, and is easy to remove and drop back so that the wick can be cleaned in an instant.

The burner body or gallery cannot become wedged, and can be quickly unscrewed for servicing. Finished in Japan or nickel, strong, durable, well-made, built for service, and yet light and ornamental.

Dealers Everywhere. If not at yours, write for descriptive circular to the nearest agency of the

The Standard Oil Company
